

**BOARD OF SUPERVISORS**  
Supervisor David Haubert, Board President  
Supervisor Elisa Márquez, Together for All Ad-Hoc Committee Vice  
Chair

March 17, 2026

Honorable Board of Supervisors  
County Administration Building  
1221 Oak Street  
Oakland, CA 94612

Dear Board Members:

**SUBJECT:      ADOPT A RESOLUTION OPPOSING THE REOPENING OR REPURPOSING  
OF THE FORMER FEDERAL CORRECTIONAL INSTITUTION IN DUBLIN  
FOR ANY FUTURE DETENTION OR CORRECTIONAL OPERATIONS**

**RECOMMENDATION:**

Adopt a resolution confirming the County of Alameda's opposition to the reopening or repurposing of the former Federal Correctional Institution (FCI) in Dublin for any future detention or correctional operations.

**DISCUSSION/SUMMARY:**

The former Federal Correctional Institution (FCI) Dublin, located within the jurisdictional boundary of the City of Dublin, in District One of Alameda County previously operated as a low-security federal correctional facility for women until its closure by the Federal Bureau of Prisons (BOP) on December 5, 2024. Systematic failures including staff misconduct, inadequate oversight, and dangerous infrastructure issues all contributed to the closure of this facility.

Since the closure of FCI Dublin, credible reports and public speculation have suggested that the federal government or federal contractors may be considering reactivating the site for detention or correctional operations. These operations include but are not limited to, the use as an immigration detention facility operated by U.S. Immigration and Customs Enforcement (ICE). On April 28, 2025, the Board President sent a letter to the Acting Director of the Federal Bureau of Prisons and to the Secretary of Homeland Security expressing strong opposition to the rumored use of FCI Dublin.

Despite this, credible reports and public speculation continue to surface. Documented incidents in other jurisdictions across the country have shown how ICE presence in communities such as Chicago and Minneapolis has led to the erosion of trust in local government both at the City and County levels.

As a declared "Welcoming County," we recommend that the Board of Supervisors affirm the County's opposition to the reopening or repurposing of the former correctional institution in Dublin for any future detention or correctional operations. Furthermore, the proposed resolution aligns with the January 27, 2026 board adopted policies to improve the County's readiness for potential increased immigration enforcement activity as recommended by the Together For All Ad-Hoc Committee.

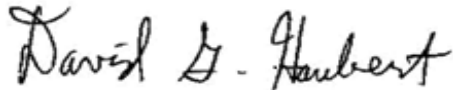

**FINANCING:**

No increase in net county cost.

**VISION 2036 GOAL:**

Adopting a resolution opposing the reopening or repurposing of the former federal correctional institution FCI Dublin meets the shared vision of **Safe & Livable Communities.**

Sincerely,

David Haubert, Supervisor  
Alameda County Board of Supervisors  
First District

Elisa Márquez, Supervisor  
Alameda County Board of Supervisors  
Second District

cc:

Auditor-Controller  
County Administrator  
County Counsel

**COUNTY OF ALAMEDA BOARD OF SUPERVISORS  
RESOLUTION NUMBER: R-2026-168**

**RESOLUTION OPPOSING THE REOPENING OR REPURPOSING OF THE  
FORMER FEDERAL CORRECTIONAL INSTITUTION IN DUBLIN FOR ANY  
FUTURE DETENTION OR CORRECTIONAL OPERATIONS**

**WHEREAS**, the former Federal Correctional Institution (FCI) Dublin, located within the jurisdictional boundary of the City of Dublin, in District One of Alameda County, previously operated as a low-security federal correctional facility for women until its closure by the Federal Bureau of Prisons (BOP) on December 5, 2024; and

**WHEREAS**, extensive reports of systematic failures, including staff misconduct, inadequate oversight, criminal prosecutions, and dangerous infrastructure issues, resulting in significant loss of public trust in the operation of the institution contributed to its closure; and

**WHEREAS**, Alameda County is one of the most ethnically diverse regions in the Bay Area and among the top 10 diverse counties in the nation; and

**WHEREAS**, Vision 2036 is the County of Alameda's comprehensive effort for the next decade that embraces the rich culture and diversity of our County and maximizes our ability to meet residents' needs in a rapidly changing world, by working to create safe and livable communities, supporting a prosperous and vibrant economy, and promoting a healthy environment; and

**WHEREAS**, more than 526,000 Alameda County residents or nearly one in three are immigrants, which includes naturalized U.S. citizens, permanent residents, temporary migrants, humanitarian migrants, and other foreign-born individuals who contribute to the cultural, social, and economic vitality of our communities; and

**WHEREAS**, since the closure of FCI Dublin, credible reports and public speculation have suggested that the federal government or federal contractors may be considering reactivating the site for detention or correctional operations, including but not limited to use as an immigration detention facility operated by U.S. Immigration and Customs Enforcement (ICE); and

**WHEREAS**, the County is aware of documented incidents in which ICE presence and heightened immigration enforcement has created an environment of fear and anxiety in communities, as well as incidents in which ICE activities are targeted based on an individual's race or appearance, often impacting individuals without a valid judicial warrant; and

**WHEREAS**, the County has seen how ICE presence in communities such as Chicago and Minneapolis has led to the erosion of trust in local government both at the City and County levels, also leading to absenteeism in schools, apprehension about interacting with public safety officers and local social support officers, and a reduced participation in the local economy; and

**WHEREAS**, the BOP has already determined that the former FCI Dublin facility is unfit for active service due to severe infrastructure issues including asbestos and mold contamination, making it a health hazard for any individuals detained there, as well as for staff; and

**WHEREAS**, frequent and ongoing protests throughout Alameda County demonstrate the deep resistance felt by the public to the presence of ICE and an immigration detention facility in our community;

**NOW, THEREFORE, BE IT RESOLVED** that this Board of Supervisors, County of Alameda, State of California, hereby formally opposes the reopening or reuse of the former Federal Correctional Institution Dublin for any detention or correctional purpose, including but not limited to its use as an Immigration and Customs Enforcement detention facility.

**BE IT FURTHER RESOLVED** that the County of Alameda urges the U.S. Department of Homeland Security, the Federal Bureau of Prisons, General Services Agency, and other relevant agencies to engage in open and transparent communication with the County regarding any decisions affecting the site.

THE FOREGOING was PASSED and ADOPTED by a majority vote of the County of Alameda Board of Supervisors this 7<sup>th</sup> day of April 2026, to wit:

**AYES: Supervisors Fortunato Bas, Márquez, Miley, Tam & President Haubert - 5**

**NOES: None**

**EXCUSED: None**

I am opposed to reopening FCI Dublin as a ICE detention center. This will only stoke fear in our immigrant and non-white neighbors and the track record for human rights abuse at these facilities is abysmal. We strongly appose having them nearby the Tri-Valley area. They go against my core values of honoring and protecting my tri-valley neighbors and community.

This is in regards to shutting down once and for all the ice facility proposed for Dublin. First let me question how can anyone be illegal on Stolen lands? That logistically and reasonably and Common Sense wise makes no sense. For Direct comments regarding the facility I do not believe that Dublin wants supporting fascism and this kind of autocratic governmental regime as part of our County's history not to mention the moral wrongness of ice in general

Oppose reopening the FCI Dublin as an ICE facility

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

Dear Alameda County Board of Supervisors,

I am a resident of Alameda County of 35 years. I am a teacher, parent, and concerned community member. First, I want to thank Supervisor David Haubert for introducing this resolution and to thank Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am writing to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

I have chosen to live in this county because of its commitment to respecting the rights, quality of life, valuable contributions and care for all of its residents. As the teacher, neighbor and friend of immigrants, in Alameda county, I am deeply concerned about how a detention center in our county would undermine the rights, safety and quality of life of Alameda County residents.

It is important to me that NO Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you for considering my statement and to those of you who vote for this resolution.

Sincerely,  
Mollie Crittenden

ICE detention center in Dublin

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Planning Meeting

---

**Comment**

I'm a resident of Pleasanton, and I urge you to oppose reopening the former FCI Dublin facility as an ICE detention center.

Our community has already spoken out—we do not want an ICE facility here. It does not reflect our values, and it risks harming both vulnerable individuals and community trust.

I respectfully ask you to take a clear public stance against reopening this facility and support alternative, community-focused uses for the site.

Thank you for your time.

My name is Ellen Coffey. I am a mother, a grandmother, a psychologist and community activist with Indivisible. I worked with EastBay Faith and Action when Dublin was a prison filled with sexual and physical abuse and deplorable conditions. Finally, we got it shut down. Alameda County does not want to be overrun by ICE terrorizing our communities. We are a County that prides itself on caring for all who live here. Reopen ing Deblin as an ICE Detention Center would bring terror and injustice to our community. It adds nothing to our health and well-being and would support the illegal ,cruel and dangerous attempts by our national government to redefine deportation.. I ask each of the Supervisors to ask themselves how the opening of this facility might affect them, their families and the people in their community who count on them. I am am counting on you today to shut it down for good. Thank you

Dear Alameda County Board of Supervisors,

My name is Laura Malchow-Hay, and I am a Alameda County resident living in District 5 and a member of SURJ Bay Area. I am writing to urge you to pass this resolution to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility.

There are several reasons why this resolution is necessary:

- Inhumane Conditions: ICE detention centers, often run by for-profit companies, have well-documented histories of withholding medical care and providing substandard food and sanitation. In 2025, there were a record 32 deaths in these facilities, and 12 people have already died in 2026.

- Community Impact: ICE activity causes profound trauma, stress, and anxiety throughout our communities and leads to routine violations of constitutional, civil, and human rights.

- Facility History and Safety: FCI Dublin has a long legacy of institutionalized sexual abuse and violence. Furthermore, the facility suffers from severe mold, asbestos, and infrastructure problems that make it unfit for humans.

- Local Opposition: The people of Alameda County are overwhelmingly opposed to an ICE detention facility in Dublin.

This is a dangerous juncture as the Federal Bureau of Prisons (BOP) has transferred FCI Dublin to the General Services Administration (GSA), making a transfer to the Department of Homeland Security possible. It is vital for the Alameda County Board of Supervisors to pass this resolution to stop the opening of an ICE detention center or any correctional facility in our county. There has been

enough harm done at FCI Dublin.

Thank you for your time and for considering my comments.

Sincerely,

Laura Malchow-Hay

Board of Supervisors Regular Meeting

**Comment**

The Bay Area has resoundingly rejected cooperation with ICE's unlawful and unconstitutional efforts to detain individuals on the basis of their race or language. Since the increase in ICE activity nation-wide, Alameda County residents have voiced their disapproval in so many ways--by dedicating their time to look out for their neighbors, by taking to the streets, by advocating for an end to the siege in communications with their elected representatives, and more.

Our voices are loud and clear. The use of the Dublin facility to hold detainees would facilitate ICE operations in a way that is inconsistent with the values of Alameda County residents. We refuse to be complicit in the rapid development of modern-day concentration camps.

As a Minnesotan by birth and an Alameda County resident by choice, I am horrified by the climate of fear being created by ICE raids. I have taught in primarily Latino schools around the Bay Area, and I check in with my teacher friends in Minneapolis regularly. We cannot afford to stay silent as we support students and families who have been forced to stay home, avoid critical healthcare, and live in fear. This is no way to live. It is inhumane, and it is a blatantly racist atmosphere designed to push Black and brown folks out of civic life.

We in this county have an opportunity to set an example. By denying ICE the material resources needed to terrorize and oppress residents, be they citizens, those seeking citizenship, or undocumented for any reason, we can show how to shut down ICE's racist attacks on our communities and on our constitutional rights.

I urge you to pass this resolution to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thank you for taking a stand against the encroaching forces of this brutalizing and untrained paramilitary force, and against the manufacturing of consent for white supremacist ideologies infecting our democracy.

**Comment**

Dear Supervisor Haubert, my name is Linda Knapp. I have been a Dublin resident for 30 years in District 1, and am a member of Indivisible Tri-Valley. Please vote Yes on this resolution on Tuesday, April 7:

I strongly support a resolution to oppose the re-opening of FCI Dublin as an immigration detention center. It's not fit for human habitation due to black mold and asbestos, and inmates were subjected to years of sexual abuse there. The Dublin City Council has unanimously come out with a resolution against reopening it. ICE has indicated that if they have a detention center within two hours of the Immigration Courts in San Francisco, that immigration arrests will dramatically increase. That will bring very negative attention to the whole Bay Area. That's NOT the kind of publicity we want. This proposal is urgently needed in light of the escalating crisis of ICE violence against our communities. Thank you for your support.

**Comment**

I am an Alameda County resident and I urge the Board to oppose the opening of an ICE detention center in Dublin, or anywhere in your jurisdiction. The center will only make it easier for ICE to harm and mass deport my neighbors and community members. Provided the inhumane ways that ICE operates, detains, and abuses people and children in detention centers there is no way to allow this in good conscience. We do not want to get rid of immigrants here. We want criminals to be brought to justice (immigrant or citizen - doesn't matter) and that is better accomplished with any other agency or local department - not ICE. Furthermore I would like to encourage the Board to adapt a moratorium on private detention facilities to help keep communities safe, like IL has: <https://www.ilga.gov/Legislation/ILCS/Articles?ActID=3990&ChapterID=55&Print=True>

My name is Kelsi Seid and I have been a resident of Alameda County for 44 years. Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am here to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

I volunteered with women who were incarcerated at FCI Dublin and experienced ongoing sexual abuse. Many of those women were abruptly transferred out of state after staff at FCI Dublin were found to be liable and the prison was abruptly closed. We do not want this facility to be a site of further abuse and harm.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you again to those of you who vote for this resolution.

Board of Supervisors Regular Meeting

**Comment**

Good Morning: My name is Joseph Glatzer.

I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. There were a record numbers of 32 deaths in 2025 and already in 2026, 12 people have died. 6 people died in the first two weeks of January alone.

This is not the kind of place we want in our Bay Area. There are better uses of money, time and energy than supporting the deportation machine. Not only that, these facilities may be used for political dissidents who aren't even undocumented. People are getting picked up at their immigration appointments and hearings who haven't done anything wrong.

As a mother and a midwife working and living in Alameda County, my heart breaks for the families who will be torn apart by this detention facility.

I am seeking the negative health affects on my patients who are afraid to seek needed healthcare for fear of encountering ICE in healthcare facilities.

Please do everything in your power to oppose ICE in Dublin.

3. As a parent and community member, I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

It is CRITICAL that we keep FCI Dublin from re-opening as any kind of prison or detainment facility. Not only does it have a long legacy of institutionalized sexual abuse and violence, it also has severe problems of mold, asbestos and other infrastructure problems, which make it unfit for human habitation. Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times. We also know that ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. There were a record numbers of 32 deaths in 2025 and already in 2026, 12 people have died. 6 people died in the first two weeks of January alone.

These facts together paint a deadly, inhuman and violent picture. I care about the safety and well-being of my neighbors, regardless of their immigration status. Please vote to oppose this reopening. Thank you.

Re: resolution to oppose FCI Dublin being converted and reopened as an ICE detention center

Dear Board of Supervisors,

My name is Susan Miler. I have lived in Alameda County, raising my children here, working here, and being an active member of the community, for over 25 years.

Thank you to Supervisor David Haubert for introducing this resolution and to Supervisors Fortunato Bas and Marquez for their ongoing work to support immigrant communities. I urge you to pass this resolution.

This is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA), which I understand could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. We need to do everything we can to prevent continued abuses by ICE here and around the country, and this is an important step that is in our power. No Alameda County resources or services should support an ICE detention center.

Thank you for your attention and your service!

Resolution Formally Opposing the Reopening or Repu

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

I, Matthew Meyer, a resident of Oakland, CA, strongly urge the Board of Supervisors to pass the Resolution Formally Opposing the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations.<sup>1</sup>

We must reject any proposal to convert the closed FCI Dublin facility into any new center for incarceration, particularly an ICE immigration detention center. The presence of such a detention facility inflicts direct harm on our communities: it fosters fear, undermines trust, and dramatically increases the risk of ICE arrests for our neighbors and families.<sup>1</sup>

Alameda County deserves a future focused on healing and community building, not the renewed expansion of the detention system. By passing this resolution, you will send an unequivocal message that this property should never be used for detention or correctional purposes again.

Please vote yes on this resolution.

Oppose reopening the FCI Dublin as an ICE facility

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

Dear Alameda County Board of Supervisors,

I am a resident of Alameda County of 35 years. I am a teacher, parent, and concerned community member. First, I want to thank Supervisor David Haubert for introducing this resolution and to thank Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am writing to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

I have chosen to live in this county because of its commitment to respecting the rights, quality of life, valuable contributions and care for all of its residents. As the teacher, neighbor and friend of immigrants, in Alameda county, I am deeply concerned about how a detention center in our county would undermine the rights, safety and quality of life of Alameda County residents.

It is important to me that NO Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you for considering my statement and to those of you who vote for this resolution.

Sincerely,  
Mollie Crittenden

Board of Supervisors Special Meeting

---

**Comment**

DO NOT ALLOW ICE TO TAKE OVER FCI DUBLIN. that campus should actually be turned into a memorial museum honoring all the women who were sexually abused and mistreated since the facility opened. Shame.....

**Comment**

I'm writing to encourage the Alameda County Board of Supervisors to vote to oppose the opening of FCI Dublin as an ICE detention center. The building should be demolished given its ugly history and unsafe conditions. If opened as a detention center, it promises only misery for the people held there and terror for anyone who is an immigrant or appears to be an immigrant in the Bay Area. Join the Dublin City Council and the people of conscience in the Bay Area in rejecting the opening of any immigration detention centers in Alameda County, especially FCI Dublin. Thank you.

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

I am a resident of Alameda County of 23 years. I am community member and mental health clinician. First, I like to express gratitude to Supervisor David Haubert for introducing this resolution. As well as Supervisors Fortunato Bas and Marquez for their ongoing work to support immigrant communities.

I urge this governing body to Adopt the Resolution confirming the County of Alameda's opposition to the reopening or repurposing of the former Federal Correctional Institution in Dublin for any future detention or correctional operations resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Voting to adopt this resolution is taking a courageous stand and a clear message that you are listening to the residents of Alameda County.

I understand this is a difficult juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

As an immigrant and long time resident of Alameda County I want to continue to live in a place that does the very best it can to respect human life and dignity and that follows the precepts of habeas corpus, due process and basic human rights.

Turning over any county controlled site to be run by the federal government, specifically DHS, would be in direct violation of these principles. DHS has continually shown that they do not care about basic human rights. To date over 40 people have perished in ICE detention centers in the last 15 months (the we know of) and there are active investigations of practices of starvation, sexual assault and torture of detainees. We do not want these crimes against humanity being perpetrated in our

county, or anywhere.

It is important to me that no Alameda County resources or services support an ICE / DHS detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

In community,  
Monica

Board of Supervisors Regular Meeting

---

**Comment**

Since ICE has been militarized by President Trump, countless innocent people have been swept up into his campaign of fear, bigotry, and hate. Immigrants who have lawfully and obediently followed every requirement have been detained, separated from their families, and deported - without due process. It is an evil thing. We must, as a people and a government of those people, stand against this. We cannot allow an ICE detention center to be built in our area. We want no part of the cruelty found there. In addition, it will put a burden on the infrastructure around it, including hospitals, water/sewage systems, power grids, and emergency responders. Please say no, in all ways you can, to ICE taking over FCI Dublin.

Opposing the Reopening or Repurposing of the FCI

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

---

**Comment**

I strongly urge the Alameda County Board of Supervisors to take a clear stand against the opening of an ICE detention center at FCI Dublin. ICE detention facilities—often run by private, for-profit corporations—have repeatedly been documented as sites of inhumane conditions, including denial of medical care, inadequate food and sanitation, and even abuse and torture. The human cost is undeniable: a record 32 deaths occurred in 2025, and already 12 people have died in 2026, including six in just the first two weeks of January. Research shows that building a new detention center can increase ICE arrests by as much as seven times, amplifying harm across entire communities—causing trauma, fear, and instability for residents, including U.S. citizens and legal permanent residents whose rights are too often violated. FCI Dublin itself has a deeply troubling history of institutionalized sexual abuse, along with unsafe conditions like mold and asbestos that make it unfit for human habitation. At this critical moment—after the transfer of FCI Dublin from the Bureau of Prisons to the GSA, which could pave the way for ICE control—it is essential for local leaders to act. Communities across the country have successfully stopped similar projects through organized opposition, proving that public pressure works. Alameda County must join that effort by passing this resolution and protecting the dignity, safety, and rights of all who live here.

I strongly support this resolution opposing the reopening or repurposing of FCI Dublin for any detention or correctional use. Our community has made clear that we do not want an ICE detention center in the East Bay. Given the documented failures and harms associated with these facilities, and with ICE in general, reopening this site would undermine trust, safety, and the values we hold in the East Bay.

ICE out of Dublin

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

I speak to you as an Oakland resident for over 45 years. I've raised kids and grandkids here. I also am a member of the Interfaith community and my synagogue. I live in the Fruitvale.

I beg you to vote against reopening FCI Dublin. FCI Dublin has a terrible past, and we do not wish it to reopen, and to be a detention center for ANYONE!

We know Trump lies when he says he is picking up "the worst of the worst". The vast majority of folks detained by ICE, have no criminal record besides coming without papers, which you probably know are almost impossible to obtain, if you are brown or black.

Trump, and his team keep the conditions inside these detention centers as bad as they can, in hopes that folks will 'voluntarily deport'.

It's not voluntary, when there is no crime, no charge, no sentence. When you don't know when, or IF, you will get out. Just horror and despair each minute.

YOU can do something about this. We KNOW that if FCI Dublin is opened, ICE, DHS, CBP, whatever, will FILL IT UP!

Say NO to reopening FCI Dublin.

I thank you!

Renee Enteen

Resolution to Oppose ICE Detention Center in Dubli

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Special Meeting

**Comment**

My name is Brian DeBar. I live in Pleasanton, am retired, and am a member of Indivisible Tri-Valley. I am a white male Christian, and originally from Michigan, but have resided in California since 2000. The treatment of our immigrants is both unlawful and immoral. When those entrusted to enforce the law choose to bend it for their own purposes, it erodes the very basis of our civil society, so I feel compelled to register my feelings on this matter to you, our local representatives.

Please vote YES on a resolution to oppose re-opening of FCI Dublin on Tuesday, April 7. I strongly support a resolution to OPPOSE the re-opening of FCI Dublin as an immigration detention center. These proposals are urgently needed in light of the escalating crisis of ICE violence against our communities. Remaining silent and/or knowingly collaborating with the ICE agenda to deprive immigrants of their constitutional rights of due process is wrong, and two wrongs don't make a right. Moreover, the existence of such a facility in our community would only invite additional risk of related chaos and potential violence. There is no incentive for us to permit such a thing in our midst.

Please stand up to this executive overreach and violation of the intentions of our Founders.  
Thank you!

-Brian

Board of Supervisors Regular Meeting

---

**Comment**

Hello. My name is Mary Ainsworth. I am a resident of Alameda County in District 1, Dublin. I have been a resident of this County for the better part of the last 40 years, And worked in school districts (specifically with children with suspected or confirmed disabilities) for about 30 of those 40 years.

I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

ICE Detention Centers are generally run by private entities who are paid with our tax dollars. Thus far, those facilities have been responsible for an inordinate number of in custody deaths and injuries, as well as poor care and distinct cruelty in some cases. I am particularly disturbed by the removal of art and writing supplies from my children in a Texas facility. The lack of those supplies render those children voiceless and with very little way to work out any trauma associated with their incarceration.

I am also concerned that by having a local ICE facility, there is likely to be an uptick in the number of arrests of immigrants who are undocumented, as well as those who have the legal right to be in this country, as well as citizens who may be mistaken for immigrants and/or who are perceived to be " interfering" with ICE activities. I believe that there will be a new culture of fear in terms of our general community, which in turn is likely to adversely affect the health of our businesses and educational institutions. Not to mention the impact on our daily quality of life.

Additionally, FCI Dublin is a facility with a tortured and criminal past related to some employees,

---

and should probably be removed or turned into a location that benefits the greater community. And indeed my understanding about why consideration for making it into some sort of community center for example, is related to its very poor and unsafe physical condition.

Under normal times, I do not believe my concern would be as high as it is at this moment. The normal checks and balances of ICE (as a law enforcement agency) appear to have dissolved. The turnover of the facility to the General Services Administration, suggests that it could be easily be added to the long list of inappropriate and immoral ICE facilities currently in operation. Please do not allow this to happen in our community.

Sincerely,

Mary Ainsworth

**Subject:** Dublin womens federal prison

Yes, absolutely use this facility to house illegal persons !!!!!!!!!!! We need to get the illegals deported as soon as possible, and to keep them in custody until deportation can be arranged.

Entering this country illegally is against the law, and therefore, a crime. We need to follow the law at all times. They can file paperwork to come back legally if they so wish, and then will be welcomed with open arms.

Laws are in place for a reason. We can't decide which laws to obey and which not. What will our society become if we all individually decide which ones to follow. It would be chaos.

I am writing to strongly urge the Board to pass tonight's resolution opposing any future use of the FCI Dublin site as an immigration detention center or correctional facility. I want to thank the Supervisors who are listening to Alameda County residents and taking this courageous stand.

With the site now under GSA control, the risk of it becoming an ICE facility is far too high. We need the Board of Supervisors to act as a shield for our community right now. My hope is for my children to grow up in a county that is safe, vibrant, and welcoming to all. I ask that you ensure no county resources ever go toward supporting ICE operations. Our local resources should be used to uplift our residents, not facilitate harm.

NO to an ICE detention center at FCI Dublin!

I have owned a home in North Oakland — in Alameda County’s District 5, 2 blocks from UCSF Benioff Children’s Hospital Oakland — since 1989. Every day I watch immigrant families walk to the hospital to get care for their children. They are my neighbors and I don’t want them to be threatened by ICE activity in Oakland, or anywhere else in the Bay Area.

My neighbors and I don’t want any ICE detention facilities in Alameda County. Every day since Donald Trump was elected ICE and CBP federal agents have been acting lawlessly and unconstitutionally. ICE agents daily violate the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents.

It’s very clear that ICE detention centers are horrible places. It’s well documented that their food, water and sanitation are substandard, and that many of those detained suffer abuse and torture. In 2025, 32 detained people died. So far this year, 12 have already died.

FCI Dublin should never be reopened; its history is full of documented sexual abuse and violence. Its physical infrastructure is full of problems, including mold and asbestos, making it unfit for humans to be housed there. Rather than being used to imprison people, it should be torn down.

I urge the board to pass this resolution to help build public pressure against turning FCI Dublin, a decrepit prison, into an ICE detention center.

Thank you for your support,  
Tom Levy

Board of Supervisors Regular Meeting

**Comment**

Good day. My name is Robert Shaye, and I have been a resident of Alameda County for five years. I am a community member and a parent in the City of Alameda. Thank you to Supervisor David Haubert for introducing this resolution, and to Supervisors Fortunato Bas and Marquez for your continued work in support of immigrant communities.

I am here tonight to urge you to pass this resolution opposing the reopening of FCI Dublin as an immigration detention center or any type of correctional facility. I also want to thank those of you who will vote in favor—for taking a courageous stand and for listening to the voices of Alameda County residents.

This is a critical moment. The Bureau of Prisons has transferred the FCI Dublin site to the General Services Administration, which creates a real possibility that the Department of Homeland Security could acquire it and establish an ICE detention center. That is why it is so important for the Alameda County Board of Supervisors to act now.

I want to live in a county where people of all backgrounds feel safe and welcome. What we have recently seen in Minnesota—where federal immigration enforcement operations led to multiple shootings, including the killing of two civilians—raises serious concerns about the impact of these facilities and practices on communities.

It is important to me that no Alameda County resources or services are used to support an ICE detention center. I urge the County to explore every available option to ensure that does not happen. Our resources should be used to support and strengthen our communities—not to harm the quality of life for those who live here.

Thank you.

Robert Shaye

Hello, my name is Amanda Brown. I am a resident of Alameda County of 6 years. I am a parent of two young children and a female founder/CEO trying to make estate planning accessible to those who cannot afford traditional planning, my company is based in Oakland. Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I'd like to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

I want my children to feel safe in Alameda County, and I my community to be vibrant and diverse.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you again to those of you who vote for this resolution.

Set Matter - No ICE

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

Hello, my name is Jeff Boyette, I am a current resident of the city of Alameda and Oakland before that. I strongly support the resolution opposing the possible re-opening of a FCI Dublin as an ICE detention center. An ICE facility in Dublin would almost certainly lead to increase in ICE activity in the Bay Area. Given ICE's track record, this is extremely alarming. Wherever we have seen ICE surge in a community, we have seen trauma, stress, violence, even death. The majority of ICE arrests have been people without criminal records, including children, families, longstanding residents, even American citizens. Already, when ICE mobilized to the Alameda Coast Guard base last year my wife and I had to consider how to talk with our young children about the possibility of armed, masked men abducting their friends and classmates in front of them. We thankfully never had to have this conversation. Your job is to protect the interests and safety of your constituents. Greater ICE presence will ensure less safety, greater fear, and long term trauma for our community. It is your duty to oppose this ICE detention center.

Thank you,  
Jeff Boyette

Do not allow ICE back in dublin. Please do not let these nazis keep harassing immigrants and Americans with brown skin. Please do not support families being kidnapped, torn apart, and tortured. Dublin is such a nice, cute, town and by letting these thugs make a home base here, it will ruin all of the progress this town has built. Don't think out of towners will want to visit the malls and restaurants next to a detention center base? No. You'll just get nazis and lose all your good tasting food.

I.C.E. detention facilities are 21st century concentration camps, where due process doesn't exist, constitutional rights are violated, and civil liberties are disregarded.

They violate our democratic ideals.

Keep it out of Dublin. The jail was bad enough.

I'm a resident of West Oakland in Alameda County. Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for supporting immigrants. I strongly oppose the reopening of FCI Dublin as an immigration detention center or any other kind of facility for incarceration. We've already seen ICE bring fear, chaos, brutality, violation of due process, and injustice to communities around the country -- reopening FCI Dublin as a ICE facility would worsen all of those things in our county and the greater area of Northern California. It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to commit to opposing it, and to investigate local procedures to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

General Administration Set Matters 58.1

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

I urge the board to adopt the resolution under set matters 58.1 and confirm the County of Alameda's opposition to the reopening or repurposing of the former Federal Correctional Institution (FCI) in Dublin for any future detention or correctional operations.

Ours is a diverse community. As Vision 2036 states: "Alameda County is one of the most ethnically diverse regions in the Bay Area and among the top 10 most diverse counties in the nation." The Board of Supervisors must officially show its support of our community and our diversity by voting in favor of this resolution."

Research shows that ICE will detain more people from communities with a detention center. We don't need to make it easy for ICE to operate. We need the Board of Supervisors to stand up for all Alameda County residents, to show their support of immigrants, and to affirm their opposition to ICE in Dublin. We, along with history, are counting on you to do the right thing and vote in favor of this resolution. And we will remember, come election day, if you do not.

I strongly oppose building an ICE facility in our town. It would inject fear, trauma, and division into a community that should be built on safety and trust. These facilities are tied to the detention and separation of families and the targeting of people who have contributed to our community for years. We should not allow our town to become a place that profits from or enables that harm. Our priority should be protecting our neighbors and investing in resources that uplift people

Board of Supervisors Regular Meeting

**Comment**

My husband Timothy and I are writing to object to ANY ICE facility in Alameda County. The idea is abhorrent. An ICE detention facility has no place in our community. We must thwart any effort to open one in our county.

Filed in August 2024, ICE's West Coast Multi-State Request for Information is seeking detention capacity of 850 to 950 additional detention beds within a two-hour drive of several ICE field office locations, including San Francisco. As demonstrated by the research conducted by the Ceres Policy Research Institute, "immigrants in counties with more detention space are significantly more likely to be arrested and detained by ICE. Further, the likelihood of ICE arrest increases as detention capacity increases."

As a resident of District 3, I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. We know that ICE is looking for detention facilities in and around Alameda County and we understand the potential impacts on residents if ICE is successful. While the Federal Correctional Institution in Dublin is not a county property, it is still important to take this action as another demonstration of how the Alameda County Board of Supervisors supports our immigrant community members.

Thank you to Supervisor Haubert for introducing this resolution and to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities. We must model for others, the kind of community we want to be.

Sincerely,

Amy & Timothy Rumberger

I oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility.

It feels urgent to me that the Alameda County Board of Supervisors to take a stand at this moment because I'm seeing that despite community opposition to this measure, actions are being taken to turn FCI Dublin as an ICE facility.

As a fourth generation Japanese American, my grandparents were incarcerated during World War II solely because of their race. Learning of my grandparents' years behind barbed wire makes me enraged to see other communities unfairly targeted. To see policies that echo the injustices my family endured—detaining people, particularly immigrants, in facilities that resemble prisons—without due process or humane safeguards, terrifies me.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

Dear Board of Supervisors,

I urge you to ADOPT A RESOLUTION OPPOSING THE REOPENING OR REPURPOSING OF THE FORMER FEDERAL CORRECTIONAL INSTITUTION IN DUBLIN FOR ANY FUTURE DETENTION OR CORRECTIONAL OPERATIONS.

I can think of no redeeming qualities of having another ICE detention center anywhere in our country, nor any reason for us to permit it happening in our county. We need to promote everything possible for safe and livable communities, and ICE has no role to play that I can fathom. ICE needs as few resources and as little power as we can manage to hold it to. Now is not the time to give even a millimeter.

Sincerely,  
Rev. Sonya Sukalski

My name is Iris and am part of Trabajadores Unidos Workers United in District 3. Thank you Supervisor David Haubert for taking a lead with ICE Out of Dublin for the County of Alameda to be taking a stance in the right side of history and publicly oppose the possible re-opening of FCI Dublin and being turned into a detention center. As this administration continues to violate our constitutional rights as citizens and non-citizens alike, being residents in Alameda County would put us all in jeopardy if this detention center were to open. As I continue to do outreach to residents throughout Alameda County, I am in awe meeting residents that love their neighbors, hearing their distraught towards this administration, and continue to hear concerns about this facility potentially opening. We've already seen it's negative impact it's had on our children, our schools, workers, our communities, and our thriving Alameda County when there was a former facility that had a contract between ICE and a local jail in Contra Costa County. That is why it is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents. I hope you all do the right thing and pass this resolution. Thank you for your attention and care to this matter.

I am strongly opposed to re-opening FCI Dublin as an ICE detention center or other correctional facility. ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents. We must not let this continue.

The former federal prison for women in Dublin should be PERMANENTLY shut down. It SHOULD NOT be re-opened for any reason, particularly for use as an ICE detention center. SO MUCH of what ICE has been doing is illegal, not to mention immoral and inhumane. Citizens of Alameda County DO NOT want an ICE detention center in our county. I have a strong suspicion that the facility will not be improved to meet health standards before such a proposed re-opening. Our immigrant community is already traumatized by the fear of ICE kidnapping. Please, no detention center at Dublin 🙏

Filed in August 2024, ICE's West Coast Multi-State Request for Information is seeking detention capacity of 850 to 950 additional detention beds within a two-hour drive of several ICE field office locations, including San Francisco. As demonstrated by the research conducted by the Ceres Policy Research Institute, "immigrants in counties with more detention space are significantly more likely to be arrested and detained by ICE. Further, the likelihood of ICE arrest increases as detention capacity increases."

As a resident of District 3, I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. We know that ICE is looking for detention facilities in and around Alameda County and we understand the potential impacts on residents if ICE is successful. While the Federal Correctional Institution in Dublin is not a county property, it is still important to take this action as another demonstration of how the Alameda County Board of Supervisors supports our immigrant community members.

Thank you to Supervisor Haubert for introducing this resolution and to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

Hi My name is Deirdre. I am a resident of Alameda County of 7 years. Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am here to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

A detention center would undermine the rights of my friends, family, and neighbors. People are already living in fear. We have seen what has been happening with abductions at schools, immigration appointments, hospitals, and airports. My heart is constantly breaking. Having an immigration prison in our backyard will only expand the harm. It has no business here. This facility doesn't align with the values of Alameda county that drew me to move here. Dublin was already closed, a huge win for the community. This would effectively reverse that decision under a different name. Our communities need parks, public transit, homes, libraries. Let's not use this shared piece of land to expand the ability to incarcerate immigrants.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you again to those of you who vote for this resolution tonight.

Good evening, my name is Sean. I am a resident of Alameda County in District 4.

I am a member of the community. I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

Having an ICE detention center in our community would be detrimental to immigrant communities.

Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times. ICE activity is causing deaths, violence, trauma, stress, and anxiety throughout our communities. ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents. Keep ICE out of the bay!

As a Pleasanton resident residing just south of Dublin, I vigorously oppose the siting of an ICE detention compound in Dublin. ICE and CBP agents have repeatedly demonstrated flagrant disregard for the rule of law and the US Constitution. For the most part, they are inadequately trained for law enforcement. They have repeatedly demonstrated poor tradecraft and employed unnecessarily dangerous and violent tactics. The vast majority of the persons they have detained appear to be not "the worst of the worst" criminals, but productive members of our society that contribute positively to our community and certainly pose no danger. These are most of the people that would be warehoused in the proposed Dublin detention facility. The existence of such a facility would fuel fear, distrust and disorder in our community, making us less safe, not more so. It would also serve as an identifier for Dublin and likely tarnish the image of our community.

I urge Alameda County to take immediate action to ensure that no local resources—financial, logistical, or personnel—are used to support the conversion of FCI Dublin into an ICE detention facility. Our community's resources must be directed toward strengthening, not undermining, the well-being of all residents.

Despite widespread community opposition, steps are already being taken to repurpose FCI Dublin as a correctional facility. This makes it imperative for the Alameda County Board of Supervisors to take a firm and public stand now.

Safeguarding our values requires proactive resistance to federal detention expansion.

I stand firmly against the reopening of FCI Dublin as an immigration detention center or any kind of correctional institution.

Now is the time for the Alameda County Board of Supervisors to take a decisive position. Even in the face of widespread community resistance, actions are already underway to transform FCI Dublin into an ICE facility.

It is critical that no county resources be used to support immigration detention. I call on the County to investigate and establish safeguards to prevent any such involvement. Our community's resources must serve to protect and uplift all residents, not contribute to systems of harm.

I am a resident of Alameda County that lives very close to Dublin, and I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. I greatly thank Supervisor Haubert for introducing this resolution, and Supervisors Fortunato Bas and Marquez for their ongoing work to support immigrant communities.

Opening up an ICE detention center in Dublin would put people living in the city and in neighboring Bay Area communities in severe danger, especially those who are immigrants, but not limited to them. We have seen just this year that ICE does not care for anyone's lives, whether citizen or not, whether white or a person of color. ICE killed a Black man in Los Angeles only a few months ago, and they have been terrorizing Bay Area communities in the East Bay as well as using intimidation tactics in other regions like the South Bay during the Super Bowl. ICE routinely violates the constitution, and we have piles of evidence from people inside of detention centers — some writing their messages on trash scraps and throwing them over fences in desperation to reach the public — that these officers do not keep centers in livable conditions, exposing detainees to disease and keeping them malnourished.

In reference to FCI Dublin specifically, this facility has a history of sexual abuse and violence that should never have happened and should never happen again. Additionally, opening detention centers have been found to increase the number of ICE arrests by seven times. We do not have this threat in our community right now and we do not need it ever. Local opposition to ICE detention centers have stopped several from opening throughout the country, and Dublin should join these other cities by refusing to open this center and put their beloved community at risk.

This is an urgent plea, a demand, to think of our communities and put them first. Do not reopen FCI Dublin as an ICE detention center. Thank you.

I live at 1507 2nd St. in Oakland. I am urging support for opposition to reopening the federal prison in Dublin. I have been so upset about the mass deportations of immigrants under the Trump regime that I attend a weekly vigil at 630 Sansome St. organized by the Interfaith Movement for Human Integrity. I see every week the worried faces of immigrants, primarily Spanish speaking but many from other countries also.

I see children. Just two weeks ago a man was waiting for his appointment with his wife and their two boys, approximately 12 and 5 years old. I heard later that he was detained at his check-in appointment. The younger child was called Emiliano by his brother. These ICE concentration camps have reports of unsanitary conditions, lack of medications, and terrible food and even torture. They are run by for-profit organizations. The Trump regime wants to deport 1 million immigrants a year to act on its White Supremacy Christian Nationalist agenda. It is a deep disgrace and we need to do everything possible to stop it. Immigrants are a blessing! Please offer my counties' opposition to making it easier to deport more immigrants by the reopening the federal prison in Dublin. Thank you!

As a taxpaying VOTHING Livermore resident I am opposed to approval of item 22 on the agenda, the FCI facility being used for ICE detainees

Please do not approve the use of FCI by any entity (state or federal) for housing ICE detainees. California was home to internment camps in the 1940's and look how that turned out. Using FCI is not dissimilar. The people of California are better than this. The United States of America is better than this. The fact that once again politicians who never have to witness the inhumanity that happens in these facilities are making decisions about places they will never see or visit is disgusting. The residents of California are better than this. The voters of Alameda County are opposed to this. Please do not allow this use to be approved.

I am writing in partnership with the growing amount of concerned citizens all over Alameda County demanding that FCI Dublin is NOT re-opened as an ICE Detention Center. After being shut down due to dilapidated conditions and decades of abuse, it would be completely unacceptable to use this space to cage immigrants. Our current administration says it is going after "illegal" immigrants, when in fact, our neighbors are being terrorized without due process. There were a record numbers of 32 deaths in 2025 and already in 2026, 12 people have died. 6 people died in the first two weeks of January alone - maybe even more by now. This is UNACCEPTABLE.

It would be a travesty to take part in the internment of immigrants in our own communities and it is urgent that the Alameda County Board of Supervisors take a stand at this moment. Our County resources must support, not harm, the quality of life for all residents. I do not consent for my tax dollars to degrade human rights and dignity.

Thank you sincerely, to Supervisors Haubert, Fortunato Bas, and Marquez for your ongoing work to support immigrant communities.

Board of Supervisors Regular Meeting

**Comment**

My name is April Newman. I work with the California Collaborative for Immigrant Justice (CCIJ), which is the coordinating organization of ACCORD (the Alameda County Collaborative for Removal Defense). Co-representing CCIJ, I sit on the steering committee of the ICE Out of Dublin (IOOD) coalition and have volunteered with the Dublin Prison Solidarity Coalition. Also, I am a member of Supervisorial District 5.

I thank the past and current Board of Supervisors for prioritizing the safety and wellbeing of Alameda County residents, regardless of their place of birth and including protection from aggressive and unlawful immigration enforcement. Studies show that ICE arrests are higher in counties with immigration detention facilities and higher in counties that have more jail and prison space. In other words, the more beds the County allows for immigration or correctional use, the more likely our community members will be arrested by ICE here. Conversely, the more the Board continues to invest in community services and people's genuine wellbeing, the safer folks will feel to engage fully in their places of work, study, worship, recreation, and community in general.

ACCORD connects people fighting their immigration cases with removal defense services. We have seen that some individuals and families do not feel safe even attending appointments with attorneys because of the heightened risk of ICE arrest in the last year with the increasingly aggressive, unrestrained, and unlawful practices of DHS, CBP, and ICE in the Bay Area as well as across the nation. We have seen misinformation and misleading information officially posted in immigration courts themselves and spread in immigration detention centers. These are just some of the obstacles that we as immigration legal service providers are working to overcome when reaching out to those with cases proceeding through this country's complex immigration system and courts.

The immigration courts are severely backlogged, exacerbated by the firing of many immigration 'judges' in the last several months from the (San Francisco and Concord) immigration courts that

serve Alameda County residents and the steep increase in detentions, which move cases to the detained court docket. The detained docket operates on shorter timelines and gives people less time to make their case for immigration protection. Sudden transfers and deplorable detention conditions often end in quick deportations or result in so-called-voluntary departures (aka “self deportations”). In the current enforcement context, each person detained is at imminent risk of losing their day in court, of not having even the semblance of a fair chance to make their case for immigration status. A local detention center would certainly endanger our community members with being torn from their lives and their families, attack the structures and stability of our neighborhoods and economies, and urgently escalate the need for detained and other removal defense services, among other effects. IOOD, ACCORD, CCIJ, and I have witnessed over and over the harms that detention facilities bring. I would like to see the property/grounds of FCI Dublin completely reconceived for truly community-serving purposes that value humanity and environmental health.

I strongly support the resolution proposed by President Haubert and Supervisor Marquez to oppose the use of the Federal Correctional Institution (FCI) Dublin as an immigration detention or any other correctional facility. Thank you.

My name is Rev. Dr. Joy Barnitz, I am UCC clergy and a chaplain at Washington Hospital; I live in District #1 of Alameda County. I am providing input on Agenda Item #58.1: "Resolution Formally Opposing the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations". for the Board of Supervisors meeting.

As a chaplain for a regional trauma center hospital, I see a lot of victims (and families!) of violence and the impact this has on staff and the community. ICE is causing needless trauma on STAFF at the hospital and on PATIENTS and their families owing to the uncertainty. As a clergy person serving a vibrant, multi-faith, multi-ethnic community I am morally and ethically bound to treat ALL patients with compassion. There is NO reason to increase the level of community trauma through permitting a detention center, a concentration camp in an area of vibrant diversity. It is difficult to escape the conclusion that the current federal administration intends to inflict trauma on this community because it is a flourishing, vibrant example of the founding principle of our union: the USA is a country bound by ideals NOT "blood and soil." We should be recognizing and celebrating our vibrantly flourishing communities ... not incarcerating people who have become vibrant members of the community, most of whom have legal standing to be in the country. I stand for due process, the rule of law, free speech and freedom of religious practice. These are conservative values consistent with the founders intent.

I urge the Board of Supervisors support for the resolution opposing the reopening of the Federal Correctional Institution in Dublin for detention operations.

Alameda County should not accept the presence of a facility to house those who have been rounded up by ICE. ICE has routinely arrested people who have committed no crimes, who have abided by the law, paid taxes, and made required visits to immigration offices when necessary. The actions of ICE belie the justification of deporting violent criminals who are in the US illegally. The harm that ICE has done to our neighbors and their families, and the damage that ICE has inflicted on our economy and the soul of our nation, are unacceptable. Alameda County should not facilitate this cruelty, and should make clear that the FCI-Dublin should not be available for their use.

Board of Supervisors Regular Meeting

**Comment**

We are at a key juncture in the fight to keep ICE out of Alameda County with the federal government making moves to open FCI Dublin as an ICE detention facility. We need our Board of Supervisors to step in to this fundamental threat to our communities.

The record speaks for itself. We have witnessed massive abuse of human rights both in the arrest of immigrants of all statuses and in their detention in conditions where there is little or no healthcare, poor nutrition, and physical and psychological abuse of people of literally all ages. The trauma their reputation engenders is running through our communities.

I believe ICE needs to be abolished and is central to the authoritarianism sweeping the US that hurts us all. It is incumbent on all of us to not cooperate from where we sit. As an example, my sister lives near Social Circle GA where ICE is trying to detain thousands in a warehouse. There, that small town put a lock on the water meter on the warehouse to buttress their case that their town did not have the water and sewer capacity, not to mention much interest, in hosting a detention center.

If a small town in the South can do this, certainly our county leadership can speak out in strong terms. I urge our Board of Supervisors do their part by registering their opposition in the strongest way by passing this resolution opposing the opening of FCI Dublin as an ICE detention center. As an Oaklander involved in supporting my immigrant neighbors, I do not want to watch them picked up and transported down 580 to Dublin. Clearly, this is what will happen if we have a detention center close by; it's common sense and studies show it to be true.

We also know the health conditions at that facility are horrible and ICE will do little to nothing to remediate them.

Colluding with human rights abuses is not Alameda County's way. Please show who we are as a

community and pass this resolution.

Holly Fincke

Hello Alameda County Board of Supervisors,

My name is Annie, and I am writing to implore you to vote to oppose the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations. Please do not allow ICE more ground to carry out their inhumane, unconscionable operations. They have already been responsible for needless deaths and harm to both US Citizens and non-violent, non-threatening immigrants. In summary, they have been responsible for unquantifiable harm and death enacted on innocent, undeserving HUMAN BEINGS. They do not care about the rule of law. They do not care about public protection. They do not care about order, principals, or humanity. They do not care about or serve any segment of the population of the United States save one: the cruel, lawless, power-blind, wealthy sycophants attempting to overrun our country through manipulation of the public, creating divisions and chaos with utterly no regard for the death and destruction that they leave in their wake. ICE nor any of its supporters or constituents align with the founding principals and values that has made the country of the United States or the state of California the global beacons that they have been throughout their history. Please, do not give them any further foothold to continue enacting their atrocities that violate everything that we should stand for; everything that makes humanity truly great and beautiful.

Thank you for your consideration.

Board of Supervisors Regular Meeting

**Comment**

Hello! I am Nida, a resident of Alameda county in Pleasanton. As a daughter of immigrants, and now parent myself, I am sincerely afraid of what would happen if an ICE facility were to open in Dublin. Living here I have experinced a wonderful community with people from diverse backgrounds! It's been amazing living here and I hope my children get to experience an even better Alameda County. But I fear that if an ICE facility were to open here, we would see the fear that emanates through Minnesota be repeated here.

I fear being questioned regarding my citizenship, my children being questioned, my neighbors afraid to leave their homes.

We have also clearly seen the conditions in these facilities- people are being sent to these facilities and living in near death conditions. Too many have died in these facilities. We cannot let that happen here or anywhere.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

I commend the courage of those voting for this resolution, and for truly hearing us the Alameda residents.

Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities. Thank you again to those of you who vote for this resolution tonight

Board of Supervisors Regular Meeting

**Comment**

Hello, I am a District 5 resident from Oakland, and I am writing in strong support of the Resolution confirming the County of Alameda's opposition to the reopening or repurposing of the former Federal Correctional Institution in Dublin for any future detention or correctional operations.

FCI Dublin has a known history of horrific human rights abuses as well as infrastructure deficiencies. If FCI Dublin were to reopen as an ICE detention center or any other correctional facility, the community impact is likely to be detrimental. ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. ICE activity is causing deaths, violence, trauma, stress, and anxiety throughout our communities. As a descendant of Japanese American survivors of US concentration camps and a mental health professional, I know firsthand that imprisoning children and families causes deep harm that has traumatic intergenerational impacts. For the sake of our community's well-being, now and in the future, we must oppose the expansion of ICE detention facilities, including reopening FCI Dublin.

We are at a critical inflection point - the Federal Bureau of Prisons (BOP) has transferred FCI Dublin to the General Services Administration (GSA), paving the way for a transfer to the Department of Homeland Security for use as an ICE detention center. It is very important for the Alameda County Board of Supervisors to pass this resolution and to help build broad public pressure to stop the opening of an ICE detention center in Alameda County. Thank you for your support.

Board of Supervisors Regular Meeting

**Comment**

As a resident of Oakland and a Japanese American descendant of survivors from WWII concentration camps, I am writing in support of the resolution to oppose the reopening of FCI Dublin as an ICE facility or any other form of carceral center. FCI Dublin was closed, in part, due to poor infrastructure, mold, and asbestos. As it stands, FCI Dublin is not fit to be reopened for any purpose. Furthermore, we currently have no ICE detention centers in NorCal, greatly limiting ICE activity in our area. The implications reach far beyond our county, and we need to take all measures we can to prevent ICE from infiltrating our communities, detaining and incarcerating people with no due process, committing acts of violence, and stoking fear.

Thank you to President Haubert and Supervisor Márquez for proposing this resolution and to other board members for their support. I strongly urge the board to continue enacting legislation and policies that protect our community members from ICE.

Board of Supervisors Regular Meeting

**Comment**

Dear Honorable Haubert and Esteemed Members of the Board

My name is Rev. Perry Sakai. I am a resident of Alameda County District 4 for the past 14 years. I am a lay pastor at First Covenant Church of Oakland. And I am a third generation American of Japanese descent.

To each of you, thank you. Thank you for already declaring that Alameda County is a "Welcoming County". And thank you Supervisor David Haubert for introducing this resolution. Thank you Supervisor Fortunato Bas and Supervisor Marquez for your ongoing work to support immigrant communities.

I urge you to pass this resolution that opposes the reopening of FCI Dublin as an immigration detention center or of any kind of correctional facility. Thanks to all of you who vote for this resolution today. Thank you for taking a courageous stand and listening to the residents of Alameda County.

As a follower of Jesus, I am commanded to love God with all my heart soul and mind and to love my vulnerable neighbor as I love myself. It is with this conviction that I speak to you today. Because in 1942, my parents and their families were vulnerable neighbors. They were placed in indefinite detention in the Stockton "Assembly Center" located on the San Joaquin County Fairgrounds and then transported to the Rower Relocation Center in Arkansas. All this was done by the Wartime Civil Control Administration. The scarring of this betrayal of our government to my parents and my relatives has left its painful mark on me and my generation and on my children and their generation.

I am compelled to love my vulnerable neighbor. I am compelled to cry out, "Never Again." "Never again" should our country target and mistreat our vulnerable neighbors as my parents and their

family were mistreated.

Honorable Supervisors, you already declared that our county is a Welcoming County. It makes me proud that you made this decision. Today, you are asked to affirm this decision. "Never Again" is "Happening Again." Please do not allow this stain be on our Alameda County that has stained the San Joaquin County Fairgrounds in Stockton and the town of Rohwer, Arkansas. Please continue following the path of welcoming our vulnerable neighbors.

Please vote YES to adopt the resolution to oppose the reopening or repurposing of the former Federal Correctional Institution in Dublin for any future detention or correctional operations. Thank you again to those of you who vote for this resolution today.

Hello Alameda County Board of Supervisors,

Thank you Supervisors Haubert and Marquez for putting forth this resolution opposing the repurposing of the former FCI Dublin for any future detention or correctional purposes. I hope that the full board will vote to adopt the resolution.

As we have found to be true in prisons and other detention facilities - if we build it, we will fill it. Incarceration is not a long term solution to the complex issues, needs and health of our communities. ICE's actions have grown more deplorable and illegal each day, and however our cities, counties and communities can hinder or halt their efforts and keep our neighbors safe, I support it!

Thank you to all for your dedicated service to Alameda County.

I am an elderly woman, 3rd generation from Alameda County. My family has been here since the 1870's and my grandfather actually farmed at the site of the Tassajarra Schoolhouse when my dad was a kid. When I was growing up 'Tassajarra' was my father's code to mean the middle of nowhere. I grew up when Camp Parks was being built. In my life I have lived in almost every corner of Alameda County from Livermore, to Pleasanton, to Union City, to Oakland and now in San Leandro. Alameda County is my home.

I say all that to give context to my very DEEP revulsion to even the thought of an ICE facility being built at the last corrections facility off of Dougherty Road. ICE is the antithesis to the efforts that built Alameda County.

I thank Supervisors Haubert and Marquez for bringing this resolution, and beg all Supervisors, especially Miley and Tam, to vote to OPPOSE the reopening of FCI DUBLIN as an ICE facility. No amount of federal bribe money could possibly make this a good thing. DO NOT give ICE a home in Alameda County. Keep them OUT of Alameda County. Alameda County is my home and ICE has no business here.

I strongly oppose building an ICE facility in our town. It would inject fear, trauma, and division into a community that should be built on safety and trust. These facilities are tied to the detention and separation of families and the targeting of people who have contributed to our community for years. We should not allow our town to become a place that profits from or enables that harm. Our priority should be protecting our neighbors and investing in resources that uplift people

**Comment**

My name is Amy Lee. I am a resident of Alameda County of 11 years. Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

As a descendant of immigrants, and as a parent, it is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

I have lived in the Bay Area my whole life and Hayward since 1998. I STRONGLY OPPOSE the reopening of FCI Dublin as an ICE Detention Facility. No ICE in our county. We should NOT be participating in the illegal activities of our current government nor warehousing human beings without due process, as is what's happening now. This is a moment when good people doing nothing will have horrendous effects. DO THE RIGHT THING! Don't allow it. Please.

My name is Veronica Ksiazek. I am a resident and parent in District 3. I strongly support the proposed resolution to formally oppose the possible reopening of FCI Dublin as an ICE detention center. As someone who works in the global human rights space, I feel compelled to speak out against the profoundly inhumane conditions we are witnessing in ICE detention facilities. Regardless of immigration status, no person, and no child, should ever be subjected to such conditions and abuse. ICE is routinely violating the constitutional, civil, and human rights of all people in its custody, including U.S. citizens and legal permanent residents. I am proud to support the growing effort to oppose ICE detention centers across the country, and in Alameda County, we must push back against the potential establishment of FCI Dublin as such a facility.

I strongly oppose converting the former Dublin women's prison into an ICE detention facility, or opening any ICE facility in Dublin, CA. ICE is carrying out illegal raids and with no accountability, separating families and denying basic human rights. Research has also shown that areas with immigration detention centers are correlated with higher rates of ICE activities and arrests. This will irreversibly harm our community, and it is not what Dublin or Alameda County stand for.

Instead, the former women's prison should be closed permanently. Prior to shutdown, non-US citizens incarcerated in the prison were specifically preyed upon by staff because of their immigration status and pending deportation case. Handing over a facility known for sexual abuse to another agency with a well-documented history of abuse is a recipe for disaster.

Thank you!

As a 25 year resident of the Bay Area, what has kept me here through all of the challenges and cost of living increases is a solid sense of inclusion, equity, justice, and humanity for all people. Letting Dublin become a hub for kidnapping and cruelty through support for the unconstitutional abductions perpetrated by ICE flies in the face of everything that decent communities should stand for. Measured, legal responses to criminal activity would have my support, but we all know that ICE does not follow rules or procedures or best practices. You must vote to oppose FCI Dublin being converted and reopened as an ICE detention center.

As a teacher, my class recently learned about the Japanese incarceration camps in California during WWII, as well as the eventual justice given to these victims of prejudice and illegal detention over 40 years later. We don't have to wait 40 years for justice. You can oppose this cruel detention now.

Board of Supervisors Regular Meeting

**Comment**

Hello, Good Afternoon. I have been a resident of Dublin for about 9 years now. I want to thank Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities. I am a student who is currently interested in pursuing a career in healthcare and consider Dublin my hometown. I am writing this comment to urge you to pass this resolution tonight to oppose reopening FCI Dublin as an immigration detention center or any sort of correctional facility. It is urgent for the Alameda County Board of Supervisors to take a stand at this moment because the Bureau of Prisons has transferred the FCI Dublin Site to the General Services Administration (GSA). The Department of Homeland Security could potentially purchase FCI Dublin and in turn, establish it as an ICE detention center. As a descendent of two immigrants, Dublin has been my home for as long as I remember. I attended DHS for my High School Education and spend a lot of my free time here with my friends, enjoying the food scene and the shopping experience. I am proud to call Dublin and Alameda county my home because of the diversity and unity of many cultures and the community that brings us all together. believe that the reopening of FCI Dublin will make me, my friends, and my family feel unsafe. I value the community between immigrants that is here in Alameda county, and I feel like the opening of an ICE detention center would instill a sense of fear in the community, as well as sprout mistrust towards government bodies. I do not want to reside in a county that will make me scared to go outside and live a normal life, due to the fear I have of being persecuted unfairly by ICE. I fear for the safety of my family, and other members of my community who are immigrants.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents. I thank you for your time reading my comment and I give my gratitude to all those who vote for this resolution tonight.

Keep ICE out!

Please do whatever you can to keep ICE out of the Bay Area, especially the Tri-Valley Area, and very especially out of Dublin.

Turning the FCI Dublin into some kind of ICE prison - or ICE-related anything! - would be terrible.

ICE has earned itself a reputation for plans that are not well thought out, not helpful, and sometimes corrupt, and employees who are poorly-trained, incompetent, and vicious.

My name is Luis Tovar and I am writing in regards to agenda item 58.1 for tomorrow's meeting: "Adopt a Resolution confirming the County of Alameda's opposition to the reopening or repurposing of the former Federal Correctional Institution in Dublin for any future detention or correctional operations"

While I understand that there is currently no plan or proposal to reopen the facility for any purpose, as a resident of Alameda county I am still hoping to see all county board members publicly oppose any future effort to reopen the facility, particularly for any purpose related to a federal immigration detention center. Such a use is not in line with the values our community holds and any effort towards this use should not encouraged or made without vocal opposition from our local government.

Thank you for your time on this matter.

I am a resident of Alameda County in District 5. I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Opening a detention center would facilitate ICE terrorizing our communities and detaining innocent people in abysmal conditions, as have been documented in places like Alligator Alcatraz. ICE has become a totally lawless paramilitary masked secret police force, and I would like to keep living in the land of the free. They are essentially Trump's private army at this point, which he wants to use to crush all dissent and remain in power so he can stay out of prison. They murdered two people in Minneapolis and did warrantless searches, and the Trump administration has no intention of holding them accountable or even doing an investigation. There is no reason for ICE to exist. They were created very recently in 2003 in the post-9/11 paranoia of Bush's War on Terror. Society did not collapse in the decades and centuries before they were created. The first step towards abolition is to unequivocally oppose all of their attempts to encroach on our communities, and this resolution would do exactly that.

Hello, my name is Rev. Dr. Kai Moore..I'm a pastor in the Presbyterian Church (USA) and a scholar of theology and social ethics, and I've been a resident of Alameda County for 11 years.

I am writing to support the resolution opposing the reopening of FCI Dublin for any detention or correctional purpose. ICE and law enforcement presence and infrastructure does not make us safer. These systems do incredible damage to our communities by separating families, traumatizing individuals, and spreading fear and distrust that fracture our social bonds. There is no moral justification for the impact this detention center would have on the quality of life for every Alameda County resident, of any citizenship or immigration status.

I urge you to support this resolution, and be proactive in protecting our community against ICE presence. Thank you for your support!

I am writing in support of the resolution to oppose the reopening of FCI Dublin as an ICE detention center. Thank you to President Haubert and Supervisor Marquez for sponsoring this resolution. The City of Dublin has already passed a similar resolution. The support of the County would strengthen this opposition. As the pastor of Resurrection Lutheran Church in Dublin I object to the reopening of FCI Dublin on moral grounds. The FCI Dublin facility was closed because of the horrific systemic sexual abuse of imprisoned women which occurred there. The indefinite detention of undocumented people without access to due process opens the doorway to more abuse of all kinds. The reports coming out of ICE detention facilities document the substandard conditions people are experiencing within them. As a Christian I am tasked with loving my neighbor, and loving them as I love myself. This is not it.

The reason we have a such a large number of undocumented residents in this country is because our immigration system doesn't work. We have failed to create pathways for good, hard-working people to become citizens, and we have delayed the decision making process for those seeking asylum. Our system needs fixing, but people who have lived and worked among us, paid taxes, and provided needed services should not have to bear the brunt of it. Shame on us for not creating a just and efficient immigration process!

Please do not compound the sins of FCI Dublin by allowing it to be used as an ICE facility. It is already a stain on this city's history. We do not want our name associated with the inhumane treatment of any more human beings.

I implore you to pass the resolution opposing the reopening of FCI Dublin as an ICE detention facility. Thank you!

Rev. Dr. Kelly Miller-Sanchez

Board of Supervisors Regular Meeting

**Comment**

Dear Board of Supervisors

I am writing to strongly oppose the reopening of the ICE detention center in our community. This decision raises profound moral, legal, and public health concerns that cannot be ignored.

There is extensive and well-documented evidence that ICE detention facilities have routinely violated constitutional, civil, and human rights—not only of undocumented individuals, but also of U.S. citizens and lawful permanent residents. Reports have consistently highlighted the withholding of adequate medical care, as well as substandard conditions involving food, water, and sanitation. These are not isolated incidents but part of a troubling and systemic pattern.

Even more alarming are the documented cases of abuse and mistreatment, including allegations that rise to the level of torture. Such practices are incompatible with the values of dignity, justice, and human rights that our nation claims to uphold.

The human cost of these conditions is undeniable. In 2025, ICE detention facilities recorded 32 deaths—the highest number on record. The situation has not improved. In 2026 alone, 12 individuals have already died, including 6 deaths within the first two weeks of January. These numbers represent not just statistics, but lives lost under preventable and unacceptable circumstances.

Reopening this facility would mean endorsing a system that has repeatedly failed to meet even the most basic standards of care and accountability. It would expose more individuals to harm and further erode public trust in our institutions.

I urge you to reject any plans to reopen this detention center and instead advocate for policies that prioritize humane treatment, transparency, and respect for fundamental rights.

Thank you for your time and consideration.

Sincerely,

Erin Kellerhals

Board of Supervisors Regular Meeting

## **Comment**

Good evening, my name is Gibran. I am a resident of Alameda County of 7 years. I am a former service worker of the county and current law student. Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am here to urge you to pass this resolution on 04/07/2026 to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

As the son of immigrants myself, this kind of violence and invasiveness into our lives can no longer exist in our communities. I want to live in a safe, reliable county, full of diverse constituents and the resources we need to thrive. We can only do that by emphasizing mental health, substance use, housing, and alleviations to poverty and not more policing and more ICE detention. I've spent years in this county advocating for my community here that I've found, and I've been living in one of the most diverse parts of Oakland, the San Antonio neighborhood, for years. A detention center in our community would rip our community apart and pose a significant health and safety risk to the members of my Oakland community, their families, and so much more. It threatens the rights we have, citizens and noncitizens alike, by permitting the federal government to take enumerated actions under the guise of "national security." The only thing that will keep our nation secure is advocating for those who live in it or are seeking to live in it, and we can only do that through community care and not more and more detention, state terrorism, and violence.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you again to those of you who vote for this resolution on 04/07.

**Comment**

ICE is no longer working within any law or following any legal due process. They have been directed and funded by the federal government to disregard the US Constitution and use racial profiling to target victims. This is NOT enforcing US immigration laws and policies but apprehending people who are following our processes 'the right way'. We're ruining lives and causing generational trauma by implementing lawless and violent process carried out by white supremacists.

One day, hopefully soon, there will be trials that call these racist and illegal processes to question and when that time comes, we want California to be known as a place that didn't allow this to happen...that the people of Northern CA did NOT allow injustice to occur and we were NEVER aligned with the OBVIOUS wrong side of history. Keep ICE out of Dublin and ALL of California.

Board of Supervisors Regular Meeting

**Comment**

I urge you to pass a resolution opposing the re-opening of a closed former federal women's prison as an ICE immigration detention center. FCI Dublin should never be reopened or repurposed for any "correctional" purpose.

I attended UC Berkeley in the 1960's and have lived in Alameda County for 44 years. Among the reasons I treasure living in this community is its rich diversity and acceptance of immigrants. FCI Dublin has a sad legacy of institutionalized rape and abuse, and the facility is unfit for human habitation. Using it as a detention center would undermine the rights and quality of life for Alameda County residents. Alameda County resources should not be used to support a detention center.

ICE has a track record of outrageous, unrepentant violations of constitutional, civil and human rights and of cruelty, violence, trauma, and death--not only to suspected undocumented immigrants but also to legal immigrants and US citizens. In fact, 32 people died while in ICE custody in 2025. Many deaths were attributed to medical neglect, inadequate care or poor facility conditions. Why bring those horrors to Alameda County?

Research from the Immigrant Legal Resource Center has shown that immigrants in counties with more detention space are significantly more likely to be arrested and detained by ICE. And the inverse is also true: immigrant community members become safer when a detention center shuts down.

I am ashamed of the cruel tactics and inhumane treatment ICE has displayed again and again and would be ashamed to see a notorious women's prison turned into an ICE detention center in my county.

Thank you for supporting the resolution to oppose the reopening of FCI Dublin. Thank you to Supervisor David Haubert for introducing this resolution and to Supervisors Fortunato Bas and Elisa Marquez for your ongoing work to support immigrant communities.

Agenda Item #58.1

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

I have lived in Alameda County for nearly 40 years. I have raised my family here, worked here, and worship here. I have always valued the quality of life, the focus on families, education, and environmental protection, \*and\* the willingness of the county supervisors to really listen to their constituents' concerns.

I followed the awful stories of abuses at Dublin Correctional Institution and was relieved to see that action was taken to hold people responsible, and to ultimately close the facility. I have also learned about the degraded physical condition of the building - with asbestos, mold, and outdated facilities.

Therefore, I am truly dismayed to know that the federal government could potentially consider re-opening the site, especially if it is used as an ICE detention center. Many of the other ICE detention sites in the US are now usually run by private, for-profit companies, and have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented.

This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment. It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents. I am here to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County. Thanks especially to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

Sincerely,  
Elizabeth Sufit, DVM

Item 58.1: Opposing the Reopening of FCI Dublin

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

To whom it may concern:

I am writing regarding the resolution formally opposing the reopening or repurposing of the Federal Correctional Institution Dublin for any future detention or correctional operations. FCI Dublin has a long history of sanctioning sexual violence against women. This was illegal and violated human rights. As a taxpaying resident of Alameda County, I want to take a stand against reopening or repurposing FCI Dublin. The Bay Area community does NOT support ICE taking over Dublin or any facility in the East Bay and surrounding cities.

I urge the Board to reject any possibility of reopening the Federal prison (FCI) in Dublin as an I.C.E facility. I.C.E does not have a good record of honoring civil and human rights. The presence of an I.C.E. facility will most likely result in an increase in detentions in this area. I.C.E. has shown itself to be antithetical to values most Americans hold dear, such as fairness, justice, and the right to due process.

Thank you,  
Sarah Watts

I strongly believe the county must oppose allowing the Dublin correctional institute to be used for any future such purpose, most particularly as an ICE detention center. ICE has shown itself to be untrustworthy and poorly regulated, and allowing them to use a Bay Area facility to "warehouse" detainees will make it much more likely that they will begin detaining immigrants in larger numbers locally. I believe these sweeping detentions cause substantially more harm than good and making this process more difficult for the federal government should be a priority for local government everywhere.

## Correction to Agenda Item 45 – 4/7/26 Agenda

Hi Susan,

Regarding Agenda Item 45 on the 4/7/26 Agenda, we noticed that while the Board letter was updated in AMS, the agenda language was not. The agenda still reflects the original language stating it is a “Second Amendment.”

The updated Board letter in the packet and on the web reads:  
“Approve First Amendment (Procurement Contract No. 227400) with Serrano Advisors, LLC.”

Could this correction be read into the record?

Submitting a comment to support the resolution 58.1. FCI Dublin has a history of significant issues both in terms of violence and infrastructure. Re-opening this facility as an ICE detention center is unacceptable and the county should be firm in its opposition. It will inevitably increase deportations in our communities. I feel passionate about this as an Alameda County resident who cares that this county is safe and supportive of all inhabitants. Passing this resolution helps make the county's stance clear and firm local opposition has been shown to help prevent development of more ICE detention centers. Pass resolution 58.1

I'm opposed into turning the Dublin facility into an ice detention center. I believe that will bring AlamedaCounty down economically, socially, in terms of safety, and in terms of moral values. Living through this time, knowing that anyone can be picked up and kidnapped off the streets has been exhausting, saddening, and terrifying for the legacy we leave this place. I do not want my county, to contribute in any way to this world. I support the resolution against reopening the FCI Dublin facility as a detention facility. Thank you.

Board of Supervisors Regular Meeting

**Comment**

Dear Alameda County Board of Supervisors,

I am writing to express my strong opposition to any effort to convert the former FCI Dublin site into an ICE detention facility.

This facility was shut down following serious and well-documented abuses, and reopening it for detention—particularly immigration detention—raises deep concerns about safety, oversight, and accountability. Reintroducing detention operations at this location risks repeating past failures and undermining public trust.

Our community has already made its position clear. The City of Dublin and multiple elected officials have formally opposed any such use of the site, reflecting widespread concern about the impact on families, civil rights, and community well-being. ☒

Even if federal authorities ultimately control the site, it is critical that Alameda County take a clear and public stance against the use of local resources or support for immigration detention at this location.

Alameda County should prioritize humane, community-centered solutions—not the expansion of detention infrastructure.

Thank you for your consideration.

Sincerely,  
Aaron Rosewell

My name is Ruth Hurvitz. I am 82 years old. I have lived in Oakland for half of all these years. My own parents were refugees from Ukraine. From their stories, I understand the desperation of people who must leave their homes to find safe harbor. In their memory, I'm urging you to vote against the detention center in Dublin.

These facilities are known for their brutality and for erosion of human rights and dignity. They are known for inhumanity, lack of adequate food and medical care. This is not an accident. They were designed to be that way – designed to be places of fear, pain, and horror.

I worked as a speech, therapist in Oakland and nearby cities. I saw firsthand that young people crave and are influenced by adults with integrity and courage. By voting against the center you will be the leaders our youth deserve. You will showing them how to live, how to have courage and how to say no to power.

Please do everything in your power to block the use of the Dublin former women's prison from being used as a ICE Detention Center.

The facility is inappropriate as a center to detain human beings. It is in ill repair and mold ridden. It is a health hazard.

Additionally allowing an ICE facility in our community will only make it more likely that ICE will terrorize our immigrant neighbors and detain, abuse and deport innocent hard working members of our community.

ICE has proven itself to be unworthy of any cooperation from local government because of its consistent heavy handed, militarized actions and its disregard of the constitutional protections of residents and citizens alike. Thank you for considering these views which are widely held among your constituents.

My name is Erica McNerney and I have resided in Pleasanton for 28 years. I am in Alameda County - District 4.

Thank you to Supervisor David Haubert for sponsoring this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I want to urge you to pass the resolution on item 22 to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correction facility.

Opening a detention facility will increase ICE activity dramatically in the Tri-Valley. ICE actions are dangerous to all in our communities. ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents.

The FCI Dublin facility will need to use emergency medical services at Stanford Valley Care in Pleasanton as it is the only emergency facility close by. This has the potential to overwhelm an already crowded emergency room. This is a point to keep in mind for all your constituents regardless of their opinions on immigration enforcement.

Local opposition to these facilities does make a difference so please support the resolution.

Thanks for listening to my comments.

Hello Supervisors,

I represent Bay Area Jews for Justice, and I'm also a racial justice leader in Kehilla Synagogue. I've lived in Oakland for 45 years, I live in District 5.

We are now nearing the end of Passover -- a holiday about liberation -- and my grandmother's family were Jewish immigrants who fled Russia to this country for Liberation: to escape persecution, to escape being conscripted into the Tsar's army -- to have a quality of life not possible for her family in Russia.

Bay Area Jews for Justice urges you to oppose re-opening FCI Dublin --because an ICE prison there would lead to massively imprisoning immigrants, immigrants who have the same right to freedom and liberation that my family did. If they build it, ICE will fill it.

Part of Jewish tradition is Tikkun Olam, the repair of the world -- and this resolution is part of that repair. Immigrants make our country beautiful! Thank you--

**Comment**

My name is Rachel Kafele and I am the Director of Advocacy at Oasis Legal Services.

Oasis Legal Services is a 501(c)(3) nonprofit that empowers low-income LGBTQ+ immigrants who have survived violence and persecution due to their sexuality, gender identity, and/or HIV status by increasing access to quality, culturally responsive legal representation and social services.

Our clients exist at the intersection of two vulnerable populations, navigating systems in pursuit of a life free of violence and persecution. Unfortunately, the increase in ICE activity and the inhumane ways in which immigrants are treated in detention is an incredible source of trauma for our clients who have already suffered so much. Reports have consistently found widespread abuse of LGBTQ+ and HIV-Positive people in ICE and CBP jails, including sexual abuse, physical assaults, inadequate medical care, solitary confinement, homophobic and transphobic verbal abuse, and lack of access to proper counsel. Because of this, people encounter new or increased mental health symptoms while in detention, including hives, panic attacks, mental health crises, flashbacks, and self-harm. No human should experience this - let alone people who are trying to survive and rebuild their lives.

I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. It is important that no Alameda County resources or services support an ICE detention center. Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times. Additionally, ICE activity causes deaths, violence, trauma, stress, and anxiety throughout our communities, routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents. FCI Dublin has a long legacy of institutionalized sexual abuse and violence and should never be reopened. Local opposition to ICE detention centers across the country makes a difference - approximately 12 warehouse sales to ICE for possible detention centers have been stopped due to local pressure.

We urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Our County resources must support, not harm, the quality of life for all residents.

Board of Supervisors Regular Meeting

**Comment**

Good evening, my name is Karis Taylor. I am a resident of Alameda County since 2017. I am a special education teacher in the Berkeley Unified School District. I want to thank Supervisor David Haubert for introducing this resolution, as well as Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I ask that the board please pass this resolution and oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Our community needs to take a stand against cruel, ineffective and expensive bad ideas that our federal government is pushing with regard to immigration control. ICE detention centers are where human rights abuses happen and lives and dreams are shattered. It breaks my heart to witness my students' living in fear for themselves and their families, and giving ICE more access and resources to our community through a detention center will only increase our students' stress and sense of hopelessness in an already stressful, uncertain world. Please be on the right side of history, and vote to pass this resolution, for the humanity of our immigrant neighbors and our own humanity as citizens of a country in crisis.

Sincerely, Karis Taylor

I am writing as a resident of Alameda County to express my opposition to the use of former FCI Dublin as any sort of correctional institution. I am especially concerned that the facility could be purchased by a private corporation that would operate it as an immigration detention center. Currently, the Bay has remained somewhat insulated from Trump's immigration surge operations, in part because ICE simply does not have the prison capacity in the Bay Area to incarcerate large numbers of immigrants. If they got access to FCI Dublin, that would all change.

Board of Supervisors Regular Meeting

**Comment**

My Name is Amanda Berger, and I live in West Berkeley. I strongly oppose the reopening of FCI Dublin as an ICE Detention facility and have been working actively on this campaign since June 2025. While I live in relative safety, my neighbor Carlos was wrongly detained at a Green Card Check-in in December and sent to Mesa Verde in Bakersfield for 5 days. This was after the death of his son Carlitos, who had been his sponsor for his green card. While the government acknowledged that they "made a mistake", it gave me a first-hand look at the cruelty of this administration and the way they use ICE Detention Prisons to disappear people. I know if we open FCI Dublin, the government will move swiftly to arrest and detain many more people in NORCAL. Please do not support this action and send a clear message to all concerned that we DO NOT want ICE in the Bay Area. Thank you

Dear Supervisors,

I am writing to express my profound concern about the proposal to create a local ICE detention center in Dublin. I URGE you to pass a resolution opposing the re-opening of FCI Dublin as an ICE immigration detention center or any other 'correctional' purpose.

Thank you,

Kristine samuelson  
resident of Berkeley

Hello, I am an Alameda County resident and active community member who dedicates a lot of volunteer time to improving the quality of life for fellow Alameda County residents. I am writing to indicate that I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. I oppose having an ICE detention center in Alameda County, because they are notorious for have profoundly inhumane conditions and very little oversight or accountability. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. As someone who cares deeply about this community, a position I know that you share, I implore you to consider taking the necessary steps to ensure this doesn't happen here. Thank you for your efforts and your consideration.

Board of Supervisors Regular Meeting

**Comment**

My name is Zachary Balian and I'm a resident of Oakland's District 3.

I oppose the reopening or repurposing of the Federal Correctional Institution in Dublin for future detention or correctional operations.

The federal government has used immigration enforcement as a weapon against our communities and relies on racial profiling to decide who belongs and who doesn't. All of our neighbors are human beings and should be treated with dignity and respect.

ICE activity is causing deaths, violence, trauma, stress, and anxiety throughout our communities. ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents. ICE facilities across the country have repeatedly withheld medical care, provided substandard food, water, and sanitation, and performed well documented abuse and torture of those being held in detention.

Alameda County has the ability to stand up to the federal government's unpopular deportation campaign by passing this resolution and building public pressure to prevent the opening of an ICE detention center. Please vote to pass this resolution and defend our communities!

#58.1: "Resolution Formally Opposing the Reopening

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Planning Meeting

**Comment**

Good evening, my name is Erin Darbo. I am a resident of Alameda County of 25 years, and I am a student and community member of this county. Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am here to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

As a friend and ally of immigrants of Alameda County, I want them to know not only will their peers protect them, but their local government and officials as well. I want them to feel safe to walk down the street and create a life in a beautiful Alameda County. I want to live in a County where everyone feels welcome and equal. When my friend first moved to Alameda County from El Salvador, she told me how lucky I was to have grown up here, how noticeable the quality of life is, the culture, and I agreed with her. Implementing a detention center in the heart of a sanctuary city will only deteriorate the culture, safety and quality of life in our County. Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times. Imagine the stress and havoc this will cause to OUR community. Now is not the time to divide. Not to mention, ICE detention facilities are private, for-profit companies, with inhumane conditions such as negligent medical care, abuse and torture, and no consideration for basic human needs like water, food, shelter, etc. I do not want my

peers and community members to be treated this way.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you again to those of you who vote for this resolution tonight.

Board of Supervisors Regular Meeting

**Comment**

I strongly oppose reopening FCI Dublin as an ICE detention facility. This decision would send shockwaves of fear and distrust throughout the entire Bay Area, a region where immigrants are not the exception, but the fabric of our communities. Many of us come from immigrant families or were born outside the United States, and in several Bay Area neighborhoods, immigrants make up the largest share of residents: <https://www.sfchronicle.com/projects/2025/immigrant-map/>

The kind of future we build reflects the values we hold. We should be investing in education and healthcare for all, not expanding systems of detention and control. We have the power to choose a different path: one that does not rely on prisons, detention centers, and correctional facilities as solutions. Saying NO to FCI Dublin as an ICE detention center is one way to make that choice.

**Comment**

FCI Dublin has a legacy of institutionalized sexual abuse as well as severe mold and asbestos and it should never be reopened. Along with this, ICE detention centers usually run by for profit companies have terribly inhumane conditions of very poor food, water, and sanitation as well as documented abuse and torture.

When ICE detention centers are opened, research shows that arrests increase by 7 times. ICE activity causes death trauma and anxiety throughout our communities. Only the most aggregious effects can come from opening an ICE detention center and these horrible outcomes are compounded by the horrific environment of FCI Dublin.

I am a resident of District 4. I urge Supervisor Miley and all supervisors to vote yes on the resolution opposing immigration detention at FCI Dublin. Passing this resolution would send a statement to all residents of the county that their elected officials stand against a federal government that is using an immigration enforcement squad to threaten the livelihoods of hard working people just because they look like and sound like they might be immigrants. A detention center in Dublin would strike fear into so many households in the Tri-Valley and entire SF Bay Area. People would stay in their homes, keep their kids home from school, creating economic distress for local businesses and schools (which receive state funding based on attendance). This federal government cannot be trusted and it is up to ordinary people, together with our closest elected officials at the municipal and county levels, to be brave and say no to their mass deportation agenda. We need to learn from Minnesota, stand with our neighbors, and be ready to offer assistance and bear witness when a surge comes to our area.

I am a constituent of district number #3 and am vehemently opposed to converting the "tainted" DCI to an ICE facility. The Dublin Women's prison was suddenly closed with the women transferred nationwide away from their families and lawyers instead of addressing the problem of repeated sexual abuse. It would be an unconscionable act to reopen this facility to unlawfully detain immigrants, without being allowed due legal process, in inhumane conditions under the purview of ICE who operate as masked terrorists in our streets. There are many accounts of immigrants dying in these facilities due to lack of medical attention and poor treatment and we've already witnessed the street executions of Renee Good and Alex Pretti in Minneapolis. I believe the Alameda Board of Supervisors can do better than reopen a prison that was closed due to sexual abuse to house immigrants who are not receiving due legal process. Please have the strength to stand up and support human rights during this authoritarian regime.

Sincerely,

Angela Kray

Hello,

I am an Alameda County voter, writing to support this agenda item. Allowing ICE to open a detention center in Dublin would put thousands of immigrants in the Bay Area at risk. ICE has proven to be a menace to the communities where it operates. Having a facility in Dublin would enhance its ability to abuse and terrorize our immigrant community members, as well as citizens who protest those actions. I hope you will vote in favor of this agenda item and stand up to ICE.

I have lived in Oakland for almost 47 years because of its diverse communities.

I support the resolution opposing the reopening or repurposing of the FCI Dublin facility for any future detention of correctional operations.

Immigrant families need support and services to work and thrive in Alameda County. The ICE presence in Minneapolis demonstrated the negative effect it had on the community-people were fearful they could be detained, kidnapped, or even killed by masked agents, many small businesses had to close temporarily, schools had high absenteeism rates.

Vote in favor of this Resolution to keep our community safe.

Dear Alameda County Board of Supervisors,

I ask that you pass the resolution to oppose the reopening of the Federal Correctional Institution (FCI) in Dublin and to ensure this building not be used for ICE detention. Alameda County is home to a vibrant immigrant community and is one of the most racially diverse counties in the country. Here, we see how a true multiracial democracy can function and thrive.

We have all seen the tragedy that unfolded in Minneapolis where ICE agents killed two American citizens and arrested many more simply for being in the wrong place at the wrong time. They kidnapped a five year old child along with his father and sent them all the way to Texas. That child missed school and though he's thankful back home, he has nightmares and will be traumatized for life now. I do not want that kind of terror and violence in my own community. I do not want my neighbors being kidnapped by ICE and subject to terrible conditions in a detention center—one that would be so close to home.

Families deserve to stay together and immigrants deserve respect and dignity. They help this county flourish and Alameda would not be the place it is without them.

Once again, please vote yes on this resolution.

Re: resolution to prevent the former Dublin women's prison from becoming an ICE detention facility.

My name is Suzanne Leonora. I have been a resident of Alameda County for most of my 68 years. My family has studied and worked and shopped in Alameda County for a century. Among us, we count a Superior Court judge and assemblyman, professors at local universities, a pediatrician, a software engineer, a mechanical engineer, a vice-president of a major agribusiness corporation, a business writer, and professional musicians.

Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities, which supports all residents. I look forward to thanking all of you for passing this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility, for standing up, for doing the right thing. At this risky moment, the Bureau of Prisons has transferred the FCI Dublin site to the GSA, which could then sell the site to the Department of Homeland Security, which would then establish an ICE detention center. So it's urgent for the Alameda County Board of Supervisors to express our opposition.

Our diversity is our strength, and our kindness to the stranger is both its own reward and the securing of a good future for all of us. The presence of immigrants in Alameda County has always brought innovation, community cohesion, cultural wealth, material wealth, increased wisdom and understanding, better resources, and better opportunities for all of us. I want to live in a place where we care for each other, where we help families, where we see all of us as equal, where we commit to due process and strive to live up to the U.S. Constitution, where our rights are part of normal life for all of us and supported by our governments. ICE detention centers, as we have seen across the country, militate against due process, are operated by badly-trained people who are encouraged to be violent, and are opposed to our values of treating each other respectfully, of welcoming sincere immigrants, of our deep commitment to due process and rational problem-solving. These detention centers sicken and kill people, separate families, imprison the innocent with the guilty and citizens with non-citizens, prevent due process, hold children for months without reasonable hygiene, health care, or education. These are evil places. Let us forbid them.

It is very important to me that no Alameda County resources or services support or encourage an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents. Let's stand together, as a community. Thank you again to those of you who vote for this resolution tonight.

I urge you to vote in FAVOR of the resolution AGAINST the opening of an ICE detention facility in Dublin. I am a Jewish community member, born and raised in Oakland, and my grandparents immigrated to this country after surviving concentration camps during the Nazi Holocaust. I see parallels between what ICE is doing here and what the Nazis did to the Jews and many others - rounding them up, putting them in concentration camps with no rights or due process. ICE is terrorizing communities throughout the country. Let's say no to government terror and protect our immigrant neighbors.

I am citizen of Berkeley, CA, commenting in support of the resolution to keep ICE out of Dublin. Opening a new detention facility in the Bay Area would enable ICE to increase their presence and terror in our communities. I do not want more ICE presence in Dublin and the surrounding areas. This will allow more masked agents to unlawfully abduct non criminal members of society. The facility is also unsuitable for operation as a detention center and I do not want more people put in terrible detention conditions. Please support the resolution. Keep ICE away from our families and children.

Sincerely,  
Julian Friedman

NO ICE IN DUBLIN!

Constituents of Alameda county do NOT want a detention center in the region. This will only make the ongoing unjust and unlawful abductions and detainment of our neighbors by ICE that much easier. We reject this regime's terror on immigrant communities and the allies standing up for them. This building was already shut down because of horrific conditions for inmates; do not allow another chapter of what will be unlawful and inhumane incarceration of people who are our neighbors, workers, culture bearers, parents, and community members.

FUND COMMUNITIES, NOT CAGES

### **Comment**

My name is Ilyssa Forman and I am a resident of Oakland (Alameda County District No. 5). I am a History PhD student at UC Berkeley, where I study the history of mass incarceration and legacies of racial violence in the United States. I have only been a resident of Alameda County since August, when I started graduate school, but I plan to be here for the next six years and beyond. I would like to urge the Board to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility.

I am deeply concerned about the possibility of the Department of Homeland Security purchasing FCI Dublin to establish an ICE detention center there. Because of this real possibility, it is vital that the Alameda County Board of Supervisors takes a stand and passes this resolution to prevent this from happening. ICE detention centers are notorious for their brutal treatment of detained persons, including but not limited to the withholding of food, water, and medicine, as well as the use of physical and sexual assault and torture. If a detention center is built in the Bay Area, it will inevitably lead to an increase in arrests by ICE. This cannot happen here. We have the opportunity to take a stand against this threat to our common humanity; preventing FCI Dublin from reopening for any purpose will help to keep our neighbors safe and help keep ICE out of the Bay.

Further, FCI Dublin has a long legacy of institutionalized sexual abuse and violence and should never be reopened for any purpose—whether DHS/ICE were the prospective purchasers of the property or not. FCI Dublin has severe problems of mold, asbestos and other infrastructure problems, which make it unfit for human habitation. The prospect that anybody would be detained at FCI Dublin knowing this would be grossly irresponsible and frankly unacceptable.

As a native New Yorker and current resident of Alameda County, my life has been indelibly shaped by immigrant communities. Several of my close friends and colleagues at UC Berkeley are immigrants from Latin America. They are an essential part of my life and the broader community fabric here in Alameda County and they deserve our protection. They are kind, passionate, caring people with friends and families who love and care about them. Nobody should be subject to the kind of violence and neglect that would ensue at FCI Dublin, whether opened as an ICE facility or for some other purpose, least of all them. I urge you to pass this resolution with our neighbors in mind—undocumented people, permanent residents, and citizens who are actively being profiled for

the color of their skin and the languages that they speak. By preventing FCI Dublin from reopening, you are taking a powerful stance that shows Alameda County values its diverse community and wants to protect all of its denizens from undue harm. Thank you so much for your time and attention to this important matter. I am honored to be a new member of this community and hope that you will take my words to heart.

As a resident of Oakland, I am writing to ask you to do all in your power to oppose the opening of an ICE facility at the federal site in Dublin. Conditions at other ICE facilities are inhumane. We cannot trust ICE to treat detainees with respect and care.

Thank you in advance for passing a resolution in opposition to ICE detaining people in Dublin.

I have been a resident of Alameda County in District 4 for 25 years. I am unable to attend Tuesday's meeting, but I urge you to vote for the resolution to oppose reopening FCI Dublin as an immigration detention center. Given the abusive reign of terror imposed by ICE, the inhumane conditions at so many immigration centers, and strong evidence that new detention centers lead to increased arrests, it is incumbent on all of us to avoid facilitating these unconscionable crimes and to do whatever we can to impede them.

Thank you for your consideration,  
Tom Bennigson

Board of Supervisors Regular Meeting

**Comment**

I am writing to express my 100% OPPOSITION to the possible re-opening of FCI Dublin as an ICE detention center.

ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. There were a record numbers of 32 deaths in 2025 and already in 2026, 12 people have died. 6 people died in the first two weeks of January alone.

Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times. See the ILRC article here:

[https://www.ilrc.org/sites/default/files/resources/if\\_they\\_build\\_it\\_ice\\_will\\_fill\\_it\\_report\\_2022.pdf](https://www.ilrc.org/sites/default/files/resources/if_they_build_it_ice_will_fill_it_report_2022.pdf)

In addition, ICE activity is causing deaths, violence, trauma, stress, and anxiety throughout our communities; ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents.

FCI Dublin has a long legacy of institutionalized sexual abuse and violence and should never be reopened. Local opposition to ICE detention centers across the country is making a difference! Approximately 12 warehouse sales to ICE for possible detention centers have been stopped due to local pressure. Our voices and actions do make a difference in this moment.

Thanks so much for your support and action on this vital issue to our communities!

My name is Raquel Gomes, I have lived in Alameda county all my life. I grew up in Pleasanton way back in the 70s. I am a public health nurse and I have worked in Contra Costa County for 20+ years. I am writing to encourage the board of supervisors to reject any ICE facilities in Dublin. I strongly believe if they build it, they will fill it. They will fill it with community members that I have served in immunization clinics, well baby clinics, women's health clinics. We need comprehensive immigration reform. We do not need to terrorize our neighbors. Thank you.

Board of Supervisors Regular Meeting

**Comment**

Hello,

As longtime resident of the East Bay, a proud immigrant, and a parent to a student in the second grade of an Oakland public school, I oppose any and all ICE activity in our community in the strongest possible way.

Specifically, \*I demand that my county representatives not allow the opening of an ICE detention center anywhere in Alameda County.\*

ICE is illegally detaining tens of thousands of people, separating children from their parents, covertly moving people out of their home states, ignoring court orders, and showing a complete lack of human empathy to the citizens they supposedly protect. They have become the executive branch of a racist agenda that contradicts our laws, our constitution, and basic human decency.

ICE has become the source of terror and anxiety in all parts of the community. And that's before they started murdering American citizens with impunity.

Show the government, the country, and the world that Alameda County is a safe place for our peaceful community, not a theater for the playground bullies who have somehow been allowed guns and ICE badges. No ICE in Alameda County!

Hello! I am Nida, a resident of Alameda county in Pleasanton. As a daughter of immigrants, and now parent myself, I am sincerely afraid of what would happen if an ICE facility were to open in Dublin. Living here I have experinced a wonderful community with people from diverse backgrounds! It's been amazing living here and I hope my children get to experience an even better Alameda County. But I fear that if an ICE facility were to open here, we would see the fear that emanates through Minnesota be repeated here.

I fear being questioned regarding my citizenship, my children being questioned, my neighbors afraid to leave their homes.

We have also clearly seen the conditions in these facilities- people are being sent to these facilities and living in near death conditions. Too many have died in these facilities. We cannot let that happen here or anywhere.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

I commend the courage of those voting for this resolution, and for truly hearing us the Alameda residents.

Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities. Thank you again to those of you who vote for this resolution tonight

I support the resolution to formally oppose the possible reopening of FCI Dublin as an ICE detention center. ICE is regularly violating constitutional rights of all residents of the United States, inflicting terror, violence, and death. Detention centers are usually run by private, for-profit companies, incentivizing the warehousing of people in inhumane conditions to realize profit. Not in our backyard.

I am submitting a comment in support of this resolution against the opening of an ICE detention facility in Dublin. The Bay Area has long been a bastion of freedom, equality, safety for identity of expression and civil rights. Opening a new detention facility in the Bay would enable ICE to increase their presence and aggression in our communities, and we absolutely don't need that. I want to be proud to be a member of a region that takes a stand for the least of us, that protects the most vulnerable and marginalized, and that demands more creative and humane solutions to our world's issues.

I am a naturalized citizen and have lived in the USA for 37 years, and in Alameda County for the past 13 years. I strongly urge you to support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center.

As an immigrant to this country, recent ICE activity has been deeply disturbing to me. ICE activity is disruptive to our communities, causing deaths, violence, trauma, and stress, as well as violating civil and human rights of all community members, including US citizens and permanent residents.

It has been well documented that ICE detention centers are very frequently violating basic human rights by withholding medical care, inadequate food, water and sanitation as well as by committing abuse and torture.

Research shows that increasing detention capacity leads to an increase in ICE arrests thereby subjecting ever more people to the inhumane conditions in ICE detention centers.

Local opposition to ICE detention centers across the country is making a difference! Approximately 12 warehouse sales to ICE for possible detention centers have been stopped due to local pressure.

Our voices and actions do make a difference in this moment.

I understand that the Federal Bureau of Prisons (BOP) has transferred FCI Dublin to the General Services Administration (GSA), which could then transfer it to the Department of Homeland Security. It is very important for the Alameda County Board of Supervisors to pass this resolution and to help build broad public pressure to stop the opening of an ICE detention center in Alameda County. Thank you for your support.

Alameda County must support humane conditions for all. ICE detention facilities have a known track record of inhumane treatment. We can't allow another prison with appalling conditions to open in our county. We should do everything we can to stop FCI Dublin from re-opening as an immigration detention center. This includes using any and all county regulations and bureaucratic hurdles to stop or delay any opening, as well as helping the city of Dublin and the State of California in doing the same. Passing this resolution is just the first step in making sure we don't have a concentration camp in our county.

As a resident of Alameda County, I strongly oppose the opening of the ICE detention center in Dublin. ICE has continued to use dangerous and unsafe tactics in their recent immigration enforcement campaigns, tactics which have no place in our community. The opening of a detention center in Dublin would invite much more of these dangerous and illegal actions to Alameda County, and would make everyone in Alameda County less safe. Please vote to oppose the new ICE detention center in Dublin.

Hello, I am a parent and educator in Alameda County's 3rd Supervisorial District.

I am writing to urge you to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility.

I understand this is a dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

A detention center in Alameda County would undermine the rights and quality of life of so many Alameda County residents, including hard-working mothers, fathers, and children. Alameda county should remain a community that welcomes and celebrate people of all backgrounds, and doesn't target and harass our neighbors based based on where they came from or how they look.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

Thank you to all of you who vote for this resolution tomorrow night, for taking a courageous stand and listening to the residents of Alameda County.

Amy

My name is Katherine Mulcoy and I'm a long-time resident in Alameda County. I'm an advocate for prison and justice reform and opposed to the reopening or adding new detention facilities of any sort to our community. Justice requires compassion, tolerance, and patience not punishment, restriction, or separation of families. I value all peoples in my community and understand that harm today only compounds suffering in the future. I want to end the perpetuation of intergenerational trauma, poverty, and the othering of human beings. Please do not support any initiatives that have anything to do with ICE or DHS. At this time, these agencies are terribly mismanaged and are morally/ethically unscrupulous. Direct county resources to provide resources that will improve our community, not inflict further harm.

Dear Board of Supervisors,

As a resident of Alameda county, I respectfully request that you oppose the reopening the FCI Dublin as an ICE Facility. Please pass a resolution to oppose this and any future immigrant detention facilities.

The federal administration's approach to immigration enforcement resembles ugly chapters of history, and has no place in our community. Immigrants should be treated with dignity and due process, without fear of being kidnapped from their communities and being held like prisoners.

Out of respect to our diverse community in the county, please oppose ICE further establishing and legitimizing their horrendous acts in Dublin.

I've lived in the Bay Area my entire life. The Bay Area is known for celebrating diversity, inclusion, and community.

I am now raising my own kids to be conscious and empathetic critical thinkers. We have conversations around immigration laws and the so-called American Dream. They are aware of the violence and disruption ICE agents bring into other communities as well as the unnecessary fear that DOCUMENTED and BORN Americans feel due to ICE's systemic prejudices.

For these reasons and more, I don't want an ICE facility in my community. This is a poor use of utilizing our community resources! How can a county that has thrived on multicultural influences support an agency that thrives on fear mongering, violence, prejudices, dishonesty, and lack of privacy.

For the safety of all of us across the Bay Area, I encourage you all to oppose the opening of any kind of immigration facility or detention center.

Dear City Council members,

In January, both the County of Alameda and City of Oakland adopted critical "ICE-Free Zones" policies. It is PAST time for Alameda to take action. Council will consider directing staff to review similar "ICE-Free Zones" via agenda item 10-A at the 4/7/26 meeting. This email is IN SUPPORT of 10-A. Take action to show that you are committed to enhancing community safety and practicing equitable & inclusive governance as stated in the city's Strategic Plan.

No ICE on Alameda City Property – YES on 10-A

Sincerely, Timothy Rumberger (Alameda County registered voter and resident since 1981).

I strongly oppose the reopening or repurposing of the former FCI Dublin institution for correctional or detention purposes!

This site is not fit for human habitation. ICE detention centers are rife with human rights abuses. Also the building of detention centers increases ICE presence and detentions in local communities which causes fear, chaos, and degradation of community health.

I do not want more of my neighbors imprisoned.

I object strenuously to housing an ICE detention center in Dublin. That entity has violated legal requirements and standards of ethics, morality, and decency that are too numerous to list. I sincerely hope you do not allow them a Bay Area base from which to carry out their heinous agendas and incarcerations.

As an Alameda County resident, I strongly oppose the opening of an ICE detention center in Dublin. ICE has used dangerous, unlawful, and cruel tactics and unconstitutionally murdered civilians. Increased ICE presence in the Bay Area will undoubtedly harm not only our undocumented community members but a detention center will irreparably sever community trust in democratic institutions. I will personally devote myself to campaigning against any board members who vote in favor of the detention center as it shows a blatant disregard for humanity and dignity in Alameda County. Please vote no.

As a twenty-five-year resident of Alameda County and an Alameda County employee, I urge you to pass the resolution to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

This is a very dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

Alameda County needs to protect its diverse population, which makes this County what it is. Any ICE presence in Alameda County endangers my immigrant neighbors and coworkers, my loved ones, my community, and causes many to live in fear because of the agencies' violent actions and indiscriminate abductions of people across the country.

It is vital to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together against ICE in our County!

I STRONGLY oppose building an ICE facility in our town. It would inject fear, trauma, and division into a community that should be built on safety and trust. These facilities are tied to the detention and separation of families and the targeting of people who have contributed to our community for years. We should not allow our town to become a place that profits from or enables that harm. Our priority should be protecting our neighbors and investing in resources that uplift our community. NO ICE IN DUBLIN.

I am a resident of Livermore. I urge the Board of Supervisors to vote in favor of the "Resolution Formally Opposing the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations". The facility already has many health and safety issues but the private companies that are generally employed by ICE will not address them. These companies are infamous for their lack of attention to the care and welfare of the detainees. Their only motivation seems to be greed and cruelty. The United States is a nation of immigrants. Our diverse population, welcoming of refugees, and inclusion of all peoples is what made America great. ICE uses the tactics of a dictatorial force to spread fear and torture the people within our community who work hard, care for our elderly, enhance our lives, and improve the future of Alameda County.

To the Board of Supervisors of Alameda County:

My name is Jean Olds. I am a 52-year resident of Dublin, having moved here 8 years before the incorporation of the city. I have watched it grow into a thriving city with highly-rated schools, sound fiscal management, and a plethora of amenities that contribute to Dublin's having recently been the fastest growing city in California. My children grew up here. I and my husband (until his death 2 years ago) were pleased to work and volunteer here for years and years.

The prospect of an ICE detention center in Dublin - a warehouse for human beings - horrifies me. Our community is peaceful. I've learned that over 40 percent of our population are immigrants. They are my neighbors, co-workers, and friends. We have all seen the terrifying videos and read the reports of belligerent and cruel ICE agents terrorizing whole communities, even law abiding citizens, in other US cities. Many "legal" and law-abiding detainees are swept up in these hunts. Data from regions where ICE detention centers have already been located show that the incidence of ICE hunts for people to detain, often conducted in a ruthless and sometimes unlawful manner, rises dramatically when detention centers are located nearby.

I implore you to pass a resolution opposing the re-opening of FCI Dublin as an immigrant detention center or for any other "correctional" purpose. We must not bow down to this inhumane abuse of our neighbors and anti-democratic travesty of of so-called justice.

Thank you for considering my concerns.

Sincerely,

Jean Olds

Hello, I'm Lauren Schwartzman and I live in the 5th Supervisorial District. I am writing regarding Agenda Item #58.1: "Resolution Formally Opposing the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations."

Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am here to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

I have many immigrant friends and they are vital members of our community. No one deserves to live under the kind of terror campaign they are experiencing right now at the hands of the federal government and state or local actors who collude/comply. We must do everything we can to block and oppose these inhumane and illegal actions by ICE, DHS, and the Trump administration.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you again to those of you who vote for this resolution tonight.

I strongly urge the Board to pass tonight's resolution opposing the reopening of FCI Dublin, whether as an immigration detention center or any other type of correctional facility. I want to thank the supervisors who vote 'yes' for having the courage to prioritize the voices and values of Alameda County residents.

We are at a critical turning point. Now that the Bureau of Prisons has transferred the site to the GSA, the door is wide open for the Department of Homeland Security to step in and convert it into an ICE detention center. This is exactly why we need the Board of Supervisors to take a firm, public stand right now.

Good evening, my name is Zoe Maisel and I am a resident of Alameda County in Rockridge, Oakland. I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. There were a record numbers of 32 deaths in 2025 and already in 2026, 12 people have died. 6 people died in the first two weeks of January alone. It is unconscionable for our community to have an ICE detention center and we have to do everything in our power to prevent it. We cannot trust others to protect us; we must protect us. I am looking to the Alameda County Board of Supervisors to pass this resolution as part of critical public opposition.

Agenda Item #58

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Planning Meeting

**Comment**

Dear Board of Supervisors

I am writing to strongly oppose the reopening of the ICE detention center in our community. This decision raises profound moral, legal, and public health concerns that cannot be ignored.

There is extensive and well-documented evidence that ICE detention facilities have routinely violated constitutional, civil, and human rights—not only of undocumented individuals, but also of U.S. citizens and lawful permanent residents. Reports have consistently highlighted the withholding of adequate medical care, as well as substandard conditions involving food, water, and sanitation. These are not isolated incidents but part of a troubling and systemic pattern.

Even more alarming are the documented cases of abuse and mistreatment, including allegations that rise to the level of torture. Such practices are incompatible with the values of dignity, justice, and human rights that our nation claims to uphold.

The human cost of these conditions is undeniable. In 2025, ICE detention facilities recorded 32 deaths—the highest number on record. The situation has not improved. In 2026 alone, 12 individuals have already died, including 6 deaths within the first two weeks of January. These numbers represent not just statistics, but lives lost under preventable and unacceptable circumstances.

Reopening this facility would mean endorsing a system that has repeatedly failed to meet even the most basic standards of care and accountability. It would expose more individuals to harm and further erode public trust in our institutions.

I urge you to reject any plans to reopen this detention center and instead advocate for policies that prioritize humane treatment, transparency, and respect for fundamental rights.

Thank you for your time and consideration.

Sincerely,

Erin Kellerhals

I am a resident of Alameda County and I urge you to pass the resolution opposing any reopening or repurposing of the former FCI Dublin site for immigration detention or any correctional use.

This is a critical moment. The Bureau of Prisons has transferred the site to the General Services Administration, creating a pathway for the Department of Homeland Security to acquire it. Without strong local opposition now, Alameda County could once again become a site of federal detention.

FCI Dublin was closed due to systemic abuse, including widespread sexual violence, unsafe conditions, and serious infrastructure issues such as mold and asbestos. Reusing this facility would knowingly place people into a site already proven to be unsafe.

Detention centers also have broader impacts on surrounding communities. Research shows their presence can significantly increase local enforcement activity, contributing to fear, instability, and harm that extends beyond those detained.

Alameda County has made commitments to protect immigrant communities. Allowing detention infrastructure to return would directly contradict those commitments.

Even if the County does not control federal decisions, your position matters. Local opposition has stopped similar projects elsewhere.

Please pass this resolution and take a clear public stance against any future use of FCI Dublin for detention.

Hello,

My name is Ashley Tovar and I am writing in regards to agenda item 58.1 for tomorrow's meeting: "Adopt a Resolution confirming the County of Alameda's opposition to the reopening or repurposing of the former Federal Correctional Institution in Dublin for any future detention or correctional operations"

As a resident of Alameda county I am still hoping to see all county board members publicly oppose any future effort to reopen the facility, particularly for any purpose related to a federal immigration detention center. Such a use is not in line with the values our community holds and any effort towards this use should not encouraged or made without vocal opposition from our local government.

Thank you for your time and consideration.

Best,  
Ashley Tovar

**Comment**

Dear Board of Supervisors,

I am writing as a concerned resident of Dublin regarding the proposed ICE facility in Dublin. As a tax paying resident I am completely opposed to this facility being established here and implore your committee to decline its approval.

I am a resident of Alameda County of 6 years. I am a state worker and active community member. Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I urge you to pass this resolution to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

We know that if the facilities are built, DHS will want to fill them with people. I do not want ICE in our communities, terrorizing our neighbors, and imprisoning people in our backyards. This moment is an abhorrent one in our history. We cannot allow this to happen. Please pass this resolution.

**Comment**

I am a member of Bay Area Jews for Justice and I am in support of this resolution. In elementary school, I read the Diary of Anne Frank. I asked myself how this could happen, and am infuriated by the violence ICE is putting in our communities that are forcing immigrants to hide, stay home from work and school, all in fear of detention. The facility in Dublin is known to be infested by mold, asbestos and other infrastructure problems, which are horrible for one's health. The facility has a history of sexual violence, and it is unimaginable to reopen this institute with this legacy and history. I have read testimonies from children and adults in Dilley, and firmly believe children have the rights to be in school with friends and loving teachers, and adults have the right to dignity as well. As a therapist, I am concerned about the lasting mental health impacts this will have on those who are detained, as well as their descendants in future generations. Local opposition to ICE detention centers across the country is making a difference! Approximately 12 warehouse sales to ICE for possible detention centers have been stopped due to local pressure. Our voices and actions do make a difference in this moment.

I am submitting a comment in support of a resolution. I am a resident of long time resident of Alameda County in District 5. I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

- a) ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. There were a record numbers of 32 deaths in 2025 and already in 2026, 12 people have died. 6 people died in the first two weeks of January alone.
- b) Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times.
- c) ICE activity is causing deaths, violence, trauma, stress, and anxiety throughout our communities.
- d) ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents;
- e) FCI Dublin has a long legacy of institutionalized sexual abuse and violence and should never be reopened.
- f) FCI Dublin has severe problems of mold, asbestos and other infrastructure problems, which make it unfit for human habitation
- g) Local opposition to ICE detention centers across the country is making a difference!  
Approximately 12 warehouse sales to ICE for possible detention centers have been stopped due to local pressure. Our voices and actions do make a difference in this moment.

**Comment**

I support the resolution to oppose reopening FCI Dublin as an ICE detention center because these facilities have a documented history of inhumane conditions, abuse, and serious health risks. Reopening this site—already known for systemic harm and unsafe infrastructure—would increase enforcement activity, deepen trauma in our communities, and put more lives at risk. Alameda County should stand firmly against bringing detention operations back to this location.

## **Comment**

The Berkeley chapter of the Japanese American Citizens League (JACL) urges the Alameda County Board of Supervisors to pass the "Resolution Formally Opposing the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations" to stop the opening of an ICE detention center in Alameda County and protect the human and civil rights of Alameda County residents.

ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. Infrastructure problems such as severe mold and asbestos make it unfit for human habitation. Moreover, the withholding of medical care, substandard food, water, adequate sanitation, and abuse has resulted in the record numbers of 32 deaths in 2025 and 12 people have already died in 2026. In fact, 6 people died in the first two weeks of January alone. ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents. FCI Dublin will perpetuate these gross violations of human and civil rights, consistent with its a long legacy of institutionalized sexual abuse and violence.

As Japanese American survivors and descendants of the United States incarceration camps, during World War II, we know that imprisoning parents and children causes deep harm that impacts the family and community for generations. This is why it is crucial that we stop the ICE detention center from opening to prevent the unjust incarceration and inhumane separation of families.

This is a critically important juncture because the Federal Bureau of Prisons (BOP) has transferred FCI Dublin to the General Services Administration (GSA), which could transfer it to the Department of Homeland Security. It is very important for the Alameda County Board of Supervisors to take a stand and pass this resolution to help build broad public pressure to stop the opening of an ICE detention center in Alameda County. Thank you for your support.

I am a resident of Alameda County in District 3. I am a public school parent in a school community with many immigrants, and a UC faculty member conducting research focused on immigrant health. This comment is to strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution, and Supervisors Fortunato Bas and Marquez for ongoing work to support immigrant communities.

Like so many of our neighbors in the county, I oppose an ICE detention center in Alameda County. As you know, ICE detention centers have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented and have deeply negative impacts on health--not only of the people who are detained, but also their families, neighbors and communities. I witness this in my work and my community, where people are delaying needed medical care out of fear of ICE detention.

Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times. ICE activity is causing deaths, violence, trauma, stress, and anxiety throughout our communities in Alameda County and beyond.

Please vote yes on this resolution.

As a concerned, taxpaying Livermore voter, I must address the issue of item 22, considering reopening the Dublin Federal Correctional Institution.

Please do not allow ANY party to use FCI Dublin as either an ICE prison/ detention center...OR as a private prison facility. Either of those would be a really bad idea. The FCI Dublin was closed for abusing prisoners. This would be more of the same and probably worse. Everyone's quality of life suffers from this whole situation of imprisoning people without due process, and proven mistreatment and cruelty by ICE and Homeland Security agents.

Stand up for all of us and the US Constitution.

Thank you

My name is John Poppleton and I am a resident and community member of Alameda County of 22 years. I am Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am here to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

As an immigrant myself, I value the welcoming community in which I live. The establishment of an ICE facility in Dublin would create an climate of fear and a local facility will encourage racial profiling, making law-abiding immigrant neighbors feel like targets in their own community.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

I am a resident in the First Supervisorial District. I strongly oppose the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations, and support the Resolution brought forth by Supervisor Haubert to oppose ICE takeover of the facility. Here are my concerns:

a) ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. There were a record numbers of 32 deaths in 2025 and already in 2026, 12 people have died. 6 people died in the first two weeks of January alone.

b) Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times. See the ILRC article here.

c) ICE activity is causing deaths, violence, trauma, stress, and anxiety throughout our communities.

d) ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents;

e) FCI Dublin has a long legacy of institutionalized sexual abuse and violence and should never be reopened.

f) FCI Dublin has severe problems of mold, asbestos and other infrastructure problems, which make it unfit for human habitation

g) Local opposition to ICE detention centers across the country is making a difference!

Approximately 12 warehouse sales to ICE for possible detention centers have been stopped due to local pressure. Our voices and actions do make a difference in this moment.

Thank you for your consideration of this very important matter.

Kind regards, Ann Brown

Filed in August 2024, ICE's West Coast Multi-State Request for Information is seeking detention capacity of 850 to 950 additional detention beds within a two-hour drive of several ICE field office locations, including San Francisco. As demonstrated by the research conducted by the Ceres Policy Research Institute, "immigrants in counties with more detention space are significantly more likely to be arrested and detained by ICE. Further, the likelihood of ICE arrest increases as detention capacity increases."

I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. We know that ICE is looking for detention facilities in and around Alameda County and we understand the potential impacts on residents if ICE is successful. While the Federal Correctional Institution in Dublin is not a county property, it is still important to take this action as another demonstration of how the Alameda County Board of Supervisors supports our immigrant community members.

Thank you to Supervisor Haubert for introducing this resolution and to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

Good morning. I am writing in support of the resolution to formally oppose reopening FCI Dublin. Reopening this would open the door to further fear in our communities. As a mother and a community member and a person of Jewish faith, I fiercely oppose such further fear and cruelty. ICE communities have documented inhumane conditions as well as 32 deaths.

Please dig deep into your hearts and vote yes on this resolution to oppose reopening FCI Dublin.

And thank you to Supervisor Haubert for bringing this resolution forward and to Supervisors Fortunato-Bas and Marquez for standing up to support the community.

And a thank you to all of you for voting your heart in this very important and humane vote.

Karen Friedman

Alameda County resident.

Dear Board of Supervisors, please vote to adopt the resolution of President Haubert and Supervisor Márquez - confirming the County of Alameda's opposition to the reopening or repurposing of the former Federal Correctional Institution in Dublin for a future detention or correctional operations. Many states have taken legal action against the Federal Government in connection with attempting to open detention centers in their states. New Mexico, Minneapolis and Michigan have been successful in bringing lawsuits by the state attorney generals to prevent the purchase of building or using existing buildings. The BOS should plan of working with Attorney General Bonta on preparing to bring a suit if this starts becoming as reality.

Thank You for all your work for our County.

Patricia Aguilera

Board of Supervisors Regular Meeting

As a Pleasanton resident just south of Dublin, I vehemently oppose the opening of an ICE detention prison in Dublin. ICE and border security agents have shown a shocking lack of respect for the rule of law and the US constitution. Their presence in our community will sow fear and disruption and will make our community more dangerous, not less so.

Board of Supervisors Regular Meeting

**Comment**

I want to urge the Supervisors to pass the resolution opposing the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. I am a descendant of immigrants, and I work with immigrants every day who make our community a better place. I value immigrants in our community who are working hard and making the world better, whatever their status.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

I strongly oppose the reopening of FCI Dublin as an ICE Detention facility. Alameda County should not do anything to facilitate the imprisonment of our immigrant neighbors and the separation of families. Opening a detention center in our backyard will invite greater ICE activity, which terrorizes our communities and makes us all less safe. Furthermore, abuse and neglect of detainees in ICE facilities across the country is well documented. ICE is not welcome in Alameda County.

I am a resident of Alameda county. I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities. ICE has terrorized our communities and has shown to consistently harm and at times kill individuals through inhumane conditions at their detention centers. Thank you for your initiative to protect our neighbors.

I'm a resident of Alameda County, Oakland district 1, and today I'm reaching out as a concerned neighbor/community member to wholeheartedly voice my support for Supervisor Haubert's proposed resolution to oppose the possible re-opening of FCI Dublin as an ICE detention center.

ICE continually violates the constitutional, civil, and human rights of ALL residents, including US citizens and legal permanent residents, causing extensive trauma, violence, death, and fractured communities—we cannot allow this in Dublin; this is inviting the wolf into our house. Research shows that if a detention center is built, ICE arrests may increase by as much as 7x to "fill" it. Already FCI Dublin has a long legacy of institutionalized sexual abuse, violence, and unsafe conditions—it was shut down for a reason, and should NOT be reopened and filled with our neighbors, friends, small business owners, and coworkers.

History and our community is watching us; please don't let us down. Please support this resolution and protect Dublin and Alameda County from further terrorization from ICE. Thank you.

My name is Galen Dougherty, I am a resident of Alameda County in District 5. I am speaking as a parent and longtime community member, and I strongly support the resolution to oppose reopening FCI Dublin as an ICE detention center.

I oppose this proposal because of its broader impact on community safety and trust. Research shows that when detention centers are established, ICE enforcement activity can increase significantly—by as much as seven times. This creates a ripple effect of fear and instability, where families withdraw from schools, healthcare systems, and public life. As a parent, I am deeply concerned about the message this sends to children in our community, many of whom already live with uncertainty and fear.

This is a pivotal moment. With FCI Dublin potentially being transferred for federal use, local leadership matters. Communities across the country have successfully pushed back against similar efforts, and Alameda County can do the same. I urge you to pass this resolution and stand firmly for the wellbeing and unity of our community. Thank you.

My name is Walker Hansen and I am a resident of Alameda County in District 5. I am a mental health clinician and community member, and I strongly support the proposed resolution to oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution, and to Supervisors Fortunato Bas and Marquez for your continued support of immigrant communities.

I oppose an ICE detention center in Alameda County because of the clear and well-documented harm these facilities cause. In my work, I see how the threat of detention creates chronic anxiety, fear, and instability for individuals and families, impacting entire communities. These centers are also associated with inhumane conditions, including inadequate medical care, abuse, and rising deaths in custody. The presence of a detention center has been shown to increase ICE enforcement activity, expanding harm beyond those detained and affecting even legal residents and U.S. citizens.

Additionally, FCI Dublin has a troubling history of abuse and unsafe conditions, including serious infrastructure issues that make it unfit for use. At this critical moment—when the facility could be transferred for ICE use—it is essential for Alameda County to take a clear stand. I urge you to pass this resolution and help prevent further harm in our community. Thank you for your time and consideration

My name is Sarah Marxer and I am a resident of District 3. I am writing to express my full SUPPORT of the recommendation to adopt a Resolution confirming the County of Alameda's opposition to the reopening or repurposing of the former Federal Correctional Institution in Dublin for any future detention or correctional operations.

As a community member and a friend, coworker, and neighbor to many immigrants--and people who may be perceived to be immigrants--I am horrified at the prospect of FCI Dublin being converted into any kind of immigrant detention center. These detention centers are becoming concentration camps where horrific abuses take place, much as abuses were committed in the past at FCI Dublin. Moreover, the presence of an ICE detention center is linked to increased detentions. I do not want the people I care about to be placed at further risk.

I am writing to urge that all Supervisors vote yes on this item.

Hello, my name is Ruilin Chen. I am a junior at Dublin High School and a first generation immigrant. Having spoken with hundreds of students, I would like to express our support for permanently shutting down FCI Dublin for any purposes.

Today is the 5th of April, nearly 3 months since the first resolution was passed. That day, students and teachers celebrated this victory. Now it's time to reinforce this stance by continuing to protect our citizens

I'm sure we've all seen what ICE has done throughout Minnesota and in Minneapolis with Rene Good and Alex Pretti. Don't let members of our own community suffer the same fate. Our students, our community, is counting on you. Do the right thing and shut down FCI Dublin for good. Thank you.

58.1 - Set Matter

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

I support item 58.1, to adopt "a Resolution confirming the County of Alameda's opposition to the reopening or repurposing of the former Federal Correctional Institution in Dublin for any future detention or correctional operations".

The author and journalist Andrea Pitzer, who has written extensively about the history of concentration camps, recently wrote an essay titled "Building the Camps". That essay is here:

<https://degenerateart.beehiiv.com/p/building-the-camps>

Pitzer notes that "concentration camp regimes in their early stages often make use of large open infrastructure to convert into detention spaces. Dachau was converted from a shuttered factory into a concentration camp in 1933."

Pitzer also writes that as Neuengamme, the largest concentration camp in northwest Germany, was established, almost nobody who lived in the city of Neuengamme tried to do anything to stop it:

"I thought of the people who went about their lives, as the life expectancy for new detainees at Neuengamme grew shorter and shorter, until death came on average just 12 weeks after arrival. I wanted those people who lived on those houses to have done something, to have stopped what unfolded inside the camp walls. But of course most didn't..."

Please don't let Alameda County or FCI Dublin become the next Neuengamme. Please oppose the reopening of FCI Dublin as an ICE detention center or as any other kind of correctional or detention facility.

Thank you.

Dear Supervisors,

I'm a District 5 resident writing in support of Agenda Item #58.1: "Resolution Formally Opposing the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations."

I am concerned about the possibility that FCI Dublin could be turned into an ICE detention facility. The reports of conditions at other ICE detention centers - including inhumane treatment and failure to provide medical care - are incredibly distressing. I urge the county government to make a strong statement that Alameda County opposes the reopening of this facility and letting the federal government use it to further terrorize immigrants.

Sincerely,  
Katie Derrig

I am writing a a nurse and as a concerned resident of Alameda County district 1 am asking you to strongly support the proposed resolution to formally oppose the possible reopening of FCI Dublin as an ICE detention facility. The building is unsafe for human occupancy due to mold, asbestos and other issues.

Reports from other ICE facilities tell of inhumane conditions, too many people have died in ICE facilities over the past year.

Reports indicate that having an ICE facility in the area increases ICE activ-ity. We have seen how ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents. Peaceful protesters have been murdered by ICE with NO CONSEQUENCES.

I am proud to live in a sanctuary state and I want all of my neighbors to feel safe. We must do all we can to keep ICE from escalating its illegal activities in our county.

Dear Alameda County Board of Supervisors,

My name is Sue Tyson. I live and work in Oakland and Sacramento and am a member of Indivisible Tri-Valley.

As has become increasingly and agonizingly clear since the start of President Trump's second term, the Trump Administration and its Department of Homeland Security conceive of ICE not as a body of law enforcement, but as a lawless, unaccountable private armed force designed to terrorize immigrants based on their race and ethnicity. Many immigrants have died in ICE detention centers, which have been revealed to be horrific sites of inhumane treatment on many levels. We cannot allow the former Federal Correctional Institution (FCI) Dublin to be used for these purposes.

For these reasons, I strongly support a resolution to oppose the re-opening or re-purposing of FCI Dublin as an immigration detention center and thank you, President Haubert, for putting the resolution to oppose re-opening the FCI Dublin on the agenda for the April 7, 2026 Board of Supervisors meeting.

Supervisors Tam and Miley, I urge you to vote YES on this resolution. It is essential that Alameda County strongly and unequivocally oppose reopening or repurposing the former FCI in Dublin for any future detention or correctional operation.

These proposals are urgently needed in light of the escalating crisis of ICE violence against our communities. Thank you for your support.

Sincerely,

Sue Tyson

I'd like to encourage all members of the board to support the "Resolution Formally Opposing the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations."

I am a resident of Alameda County living in Oakland on unvested Lisjan Ohlone land and I strongly support this resolution.

ICE is hurting people across the country, ripping apart families and communities. We don't need more ICE infrastructure here in Alameda County. When ICE gets a foothold in a place, they are able to further terrorize residents of that area, including citizens and immigrants alike. Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times. See the ILRC article [here](#).

It is very important for the Alameda County Board of Supervisors to pass this resolution and to help build broad public pressure to stop the opening of an ICE detention center in Alameda County. Thank you for your support.

Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

Dear supervo,

As a resident of Alameda county and a racial justice advocate with SURJ Bay Area, I strongly urge you to pass the resolution to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

I am a descendent of immigrants who came to this country to flee oppression in eastern Europe and I am horrified by our current administration 's stance degrading and destroying the lives of hard-working immigrants who are here to make a better life for themselves and their families. We know that immigrants improve the economic life of communities and are much less likely to commit crimes than those who were born in this country I do not want to live in a county where my immigrant friends and neighbors are treated like animals, when they are doing everything possible to improve their own quality of life and the lives of the rest of the community

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you again to those of you who vote for this resolution tonight.

Board of Supervisors Regular Meeting

I am a resident of Alameda County of 57 years. I am a member of Indivisible Tri Valley. I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. ICE detention centers, usually run by private, for profit companies and have profoundly inhumane conditions. The withholding of medical care, substandard food, water and sanitation, and abuse and torture have been well documented. There were record numbers of 32 deaths in 2025 and already in 2026, 12 people have died. Six people died in the first 2 weeks of January alone.

It is so very important for you to pass this resolution and to build broad public pressure to stop the opening of an ICE detention center in Alameda County. Thank you for your support.

Hello, my name is River, and I'm commenting as a resident and community member of Alameda County for more than 10 years.

Thank you to Supervisor David Haubert for bringing this work forward, and thank you to Supervisors Fortunato Bas and Marquez for supporting immigrant communities.

I urge you to pass this resolution tonight to oppose turning FCI Dublin into an immigration detention center or correctional facility.

If you vote for this resolution tonight, you have my thanks for representing the residents of this county and standing up for our immigrant neighbors at a time like this.

The Bureau of Prisons put us at a dangerous crossroads when they transferred the FCI Dublin site to the General Services Administration. The Department of Homeland Security could buy FCI Dublin to set up an ICE detention center. Right now is the time for the Alameda County Board of Supervisors to act.

I don't think it's news to you about the inhumane conditions in ICE detention centers. Detainees don't have access to the medical care, food, water, and sanitation they need while enduring abuse and torture. As a survivor, I strongly oppose FCI Dublin reopening because of its long legacy of institutionalized sexual abuse and violence.

Last year 32 people died in detention centers—a record high. And this year it's only gotten worse. 12 people have died, 6 of those in the first two weeks of January.

An ICE detention center will hurt Alameda County's communities and drain our resources. I urge the County to protect its residents and take every step it can to keep ICE out.

We need to support each other and stand up against ICE. Thank you again for voting for this resolution tonight.

I'm writing to ask that you support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. I believe any attempt by ICE to acquire warehouses or shuttered prisons in Alameda County to convert them into immigrant detention centers would be detrimental to our communities.

Hello,

My name is Joan Tenbrink. I am a resident of Alameda County for over fifty years. Supervisor David Haubert, thank you for introducing this resolution. Thank you to supervisors Fortunato Bas and Marquez for you ongoing work to support our immigrant communities. Thanks to all of you who vote for this resolution tonight, for taking a stand and listening to the residents of Alameda county. This is a really dangerous time because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for for the Department of Homeland Security to purchase FCI Dublin and establish an ICE dentention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

It is important that NO Alameda County resources or services support an ICE detention center. Our county resources must support, not harm, the quality of life for all residents.

Thank you to those of you who vote for this resolution tonight.

Sincerely,

Joan Tenbrink

I vehemently oppose a new ICE prison in Dublin, especially at the site of sexual abuses against the people being held there. Most of the country and certainly most of California is unhappy with the Administration's actions on immigration through ICE, quite a bit of which has been illegal. A facility in my region would serve to encourage their sloppy, disastrous activity. Their detentions have not been in the best interest of Americans.

To the Alameda County Board of Supervisors:

My name is Rachel Wilson, and I am a resident of the 5th Supervisory District. I am writing in strong support of a resolution opposing the reopening of FCI Dublin as an ICE immigration detention facility or for any other correctional purpose.

The documented history of abuse at FCI Dublin, combined with the well-established pattern of inhumane treatment of detainees in ICE custody, makes any such proposal deeply troubling. Reopening this facility would not only subject vulnerable people to cruel and dangerous conditions — it would bring an increased ICE presence into our neighborhoods, undermining the safety and trust of our entire community, including our immigrant residents.

Alameda County has long stood as a community that values dignity, due process, and the protection of all people regardless of immigration status. It is essential that this Board take a clear and unequivocal stand against the federal administration's use of our community's resources to further policies that violate basic human rights. In doing so, the County sends an unambiguous message that Alameda County will not be complicit in the abuse of its residents and will resist any effort to use our land and institutions against the people we are meant to serve.

I urge the Board to pass this resolution without delay.

Respectfully,  
Rachel Wilson  
5th Supervisory District, Alameda County

I am writing to make my voice heard and implore you to pass the resolution to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. It's time to take a courageous stand to ensure our county resources support, not harm, the quality of life for everyone here.

The possibility that the Department of Homeland Security could purchase FCI Dublin and establish an ICE detention center is real. This is why it is urgent for the Alameda County Board of Supervisors to take a stand now and honor the wishes of residents in the county.

As a descendant of immigrants, I know that the opportunity to live freely and without fear in this country is how all of us thrive. We cannot let California lose its commitment to people of all nationalities who make this State great.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen.

Thank you to everyone who represents my voice and votes in favor of this resolution.

**Comment**

Thank you for receiving my public comment. I am writing in strong support of a resolution to OPPOSE the opening of an ICE detention center at FCI Dublin. If a detention center opens in Dublin, the presence of ICE officers in our daily lives will dramatically increase, and fear alone will cause our friends and neighbors to stay home from work, school, miss doctor appointments for fear of being detained or worse. We have all seen the horror and death caused by these untrained officers who threaten the safety and well-being of any person, whether a citizen/legal resident or undocumented. We have seen this in many other places in the USA. ICE terrorizes communities, people are "dissappeared", beaten, treated inhumanely in custody, and murdered on our streets. Fear and terror will radically transform our lives, our economy, our basic human safety.

It is particularly important to pass this resolution now and continue to consistently stand AGAINST the presence of any ICE detention center in our community because the Federal Bureau of Prisons (BOP) has transferred FCI Dublin to the General Services Administration (GSA), which could transfer it to the Department of Homeland Security. It is very important for the Alameda County Board of Supervisors to pass this resolution and to help build broad public pressure to stop the opening of an ICE detention center in Alameda County.

I urge you to pass a resolution in OPPOSITION to the ICE detention facility, and to take a clear public stand to encourage our communities to peacefully unite to maintain our freedom and humanity.

Thank you.

Lara Webber

My name is Barbara Comstock and I have been a resident of Alameda County for 30 years. We raised both of our children here and I taught in our public schools for over 20 years as a middle school educator.

I am writing to support the resolution to formally oppose the re-opening of the FCI Dublin facility. My thanks to Supervisor Haubert for introducing the bill and to Supervisors Marquez and Fortunato Bas for their ongoing work to support our immigrant communities.

FCI Dublin was closed due to severe and toxic issues with infrastructure and had a long history of abuse and violence. It should NEVER be reopened. I know it has been transferred to the General Administration Services and they could very well transfer it to the Dept. of Homeland Security. DHS often sells their facilities to private prison companies who they then contract with to work with ICE.

We know that private companies running detention facilities create inhumane treatment of detainees. We also know that when there is a detention facility near by (both privately and publicly run), ICE activity increases dramatically as do arrests, often of innocent individuals. Increased ICE activity in a community causes fear, violence, trauma, anxiety, and an untold number of deaths. Children end up missing school and families are reticent to go to work, shop for food, leave their homes. ICE activity and these facilities violate the Constitutional rights of all individuals who are often dragged away without due process. We cannot allow this in Alameda County.

Please vote YES on this resolution to oppose reopening the FCI Dublin facility and to protect our communities.

Thank you.

#58.1: Resolution Formally Opposing the Reopening

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

As a resident of Hayward, in District 2, I am writing to express my support for the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. ICE officers consistently demonstrate indifference to public safety; they've murdered 2 U.S. citizens this year and are directly responsible for the deaths of over 44 people in their custody since 2025. ICE detention centers are tantamount to concentration camps. Inhumane conditions such as withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented within their detention centers. ICE's penchant for racial profiling puts me and all of my non-white neighbors and friends - regardless of their immigration status- at risk. ICE operates recklessly and cruelly, and I expect Alameda County to do absolutely everything in its power to protect it's residents from this out-of-control agency. Thank you.

Good afternoon, my name is Jessica. I live in Oakland and I have been a Bay Area resident for 15 years and an Alameda County resident for 12 years. I am here to urge you to pass the resolution to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. My own life is richer because of my relationships with immigrants to this country, dating back to my experiences teaching English as a Second Language 25 years ago to immigrants from Latin America and Asia. I was so impressed by their bravery in leaving their homes and everything familiar to come here to work hard to make new lives for themselves and their families. Immigrants make our country stronger and better, and an ICE detention center would make their lives harder at a time that is already very frightening. Thanks to all of you who vote for this resolution, for taking a courageous stand and listening to the residents of Alameda County.

I don't think ICE should be allowed to build a prison in Dublin. It is well known that ICE is arresting innocent people, and the more space they are allowed to imprison people in, the more people they imprison. They are not going after criminals, they are racially profiling innocent community members. They have NO regard for humanity, and no city should be accommodating them, especially in the Bay.

I am writing to urge you to vote against an ICE detention facility in Dublin. ICE has been terrorizing our communities, and these facilities have a track record of very concerning human rights abuses. Lack of access to medical care, poor nutrition services, and inhumane overcrowded conditions are just a few examples. ICE prisons have no place in Alameda county, please vote against an ICE detention center.

I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am heartsick and furious that the U.S. is following in the footsteps of Nazi Germany in targeting and incarcerating some of our population in modern-day concentration camps. ICE facilities that house children, such as the one in Dilley, Texas, are traumatizing them, and it's well documented that captives in these facilities receive substandard food and sanitation, inadequate medical care, and even abuse. ICE has repeatedly refused members of Congress access to the facilities, which means they may be hiding even worse abuses.

I was born and grew up in Oakland, and I have always deeply valued living in a diverse community with progressive values. An ICE facility in Alameda County would go against those values and enable the Trump administration's cruel and inhumane immigration agenda. Our County resources must support, not harm, the quality of life for all residents.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

Thank you to those of you who vote for this resolution.

My name is Karen Gonzales and I've been a resident of Alameda County for 35 years.

Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I can't be at your meeting in person. I strongly urge you to pass this resolution tonight to OPPOSE the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility.

I know that the Board of Prisons has transferred this toxic facility with a dark past to the GSA. I am deeply concerned that if the Department of Homeland Security takes it or leases it to a private prison management company, our community will be in grave danger. Please do all you can to vote against it.

Thank you for your consideration.

Karen Gonzales  
Dublin Resident

Board of Supervisors Regular Meeting

**Comment**

Dear Board of Supervisors Members,

Thank you for serving for our county as an elected official. I live in our country's first district.

I strongly support the proposed resolution to formally oppose the possible re-opening of FCI Dublin as an ICE detention center. Thank you to Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

ICE activity is causing deaths, violence, trauma, stress, and anxiety throughout our communities. ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents.

ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented.

I am greatly concerned about the harm that would be done by having an ICE detention facility in Dublin. Please support the resolution that works toward respecting human rights of all in our county and country.

Thank you,  
Elizabeth Hopkins-Kurz

Dear County Board of Supervisors,

I am a 15 year resident of Alameda County and I live in Alameda. I am 100% opposed to the former federal correctional facility in Dublin being turned into a detention center by the Trump administration. They have abolished due process, habeas corpus and freedom of speech. Their detention centers are actually cruel, inhumane Concentration Camps! All human beings in California and the United States should want no part of that. No role in that. Trump's Centers perpetrate crimes against humanity. Vote against this planned, horrific Center every time it rears its ugly head.

My name is Kristen Fu, and I am a resident of Alameda County of 15 years. I am an educator and a faith community member. Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am urging the board of supervisors to pass this resolution to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

As a child of immigrants myself, I have witnessed the hard work it took my family members to make a life for themselves in a new country. I am not only a benefactor of their efforts, but also of policies and communities that supported immigrants. One of Alameda County's great strengths is our diversity and the many immigrant communities that have made a life here and become a part of the fabric of our cities throughout history. Our cities and communities thrive when we support immigrants, not criminalize them.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

We all need to stand together! Thank you to those of you who vote for this resolution.

Public comment for Agenda Item #58.1

I have been a resident of the Tri-Valley area of Alameda county my entire life and have lived and voted in Livermore for the past 15 years. I stand with all members of our community committed to do the right thing and permanently close FCI Dublin and take all measures necessary to prevent its reopening as an ICE detention center or for any other use. This tragic part of our history that was FCI Dublin must remain firmly in the past, and we must take a stand to hold the line against the atrocities that beset our nation today.

Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times in our area. My neighborhood has a high population of community members who will be put at extreme risk if ICE is allowed a foothold here. Our diversity is a major strength of our County and I believe the Board will do the right thing to protect all residents by making it crystal clear that ICE has no place here.

Thank you Supervisor Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities. Thank you for keeping our County safe from fascism by passing this resolution.

Board of Supervisors Regular Meeting

**Comment**

My name is Kia Wang Nevarez, and I've been a resident of Alameda County since 2009. My husband and I moved to Oakland for career opportunities and to be closer to family but also because as an interracial couple, it was important for us to live in a diverse community. The opening of an ICE facility in Dublin would put the safety of this community at risk.

If they build it, ICE will fill it. A detention facility would increase ICE presence in our streets and neighborhoods and threaten the well-being of students going to school, parents raising their children, and workers contributing to our economy. Children who are worried about being separated from their parents won't be able to focus on learning. Adults who are afraid to leave the house because of the threat of being detained or questioned by ICE on the basis of their race won't go to work and patronize local businesses.

Although ICE will primarily be potentially harmful to people of color, we've learned from what happened in Minneapolis that ICE will attack anyone they see as a threat, even those merely showing concern for their neighbors and peacefully exercising their right to document law enforcement.

I urge you to vote to oppose the reopening of FCI Dublin as an ICE facility. Please help keep Alameda County a place where immigrants are welcome, diversity is valued, and all residents are treated with dignity.

**Comment**

Hello, I initially left my comment opposing the detention center in Dublin under agenda item 22 until the agenda item was changed to 58.1. A few others have done the same so please check comments on item 22. Here is my comment again:

I am an Alameda County resident and I urge the Board to oppose the opening of an ICE detention center in Dublin, or anywhere in your jurisdiction. The center will only make it easier for ICE to harm and mass deport my neighbors and community members. Provided the inhumane ways that ICE operates, detains, and abuses people and children in detention centers there is no way to allow this in good conscience. We do not want to get rid of immigrants here. We want criminals to be brought to justice (immigrant or citizen - doesn't matter) and that is better accomplished with any other agency or local department - not ICE. Furthermore I would like to encourage the Board to adapt a moratorium on private detention facilities to help keep communities safe, like IL has: <https://www.ilga.gov/Legislation/ILCS/Articles?ActID=3990&ChapterID=55&Print=True>

Regarding the proposed ICE facility in Dublin, as a taxpayer and long-time Alameda County homeowner and resident, I strongly oppose this. The federal government has demonstrated no ability to manage immigration reform legally and morally. ICE is detaining families and children in internment centers around the country where civil and human rights are routinely abused, food is contaminated, legal support is rare and communication thwarted. ICE has no credibility. It must not be able to continue its lawless, inhumane treatment of citizens and residents in California.

NO ICE IN DUBLIN!

Board of Supervisors Regular Meeting

**Comment**

I am writing to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thanks to all of you who vote for this resolution tonight, for taking a courageous stand and listening to the residents of Alameda County.

I understand this is a really dangerous juncture because the Bureau of Prisons has transferred FCI Dublin site to the General Services Administration (GSA). This could be the opening for the Department of Homeland Security to purchase FCI Dublin and establish an ICE detention center. This is why it is urgent for the Alameda County Board of Supervisors to take a stand at this moment.

I'm first generation born in the US, and have lived in the Bay Area my whole life. I love it here and feel like I can see myself in so many others. The bay area embraces different cultures, different walks of life, because at the end of the day we all wanted to be treated the same and we respect one another. Having a detention center in our Bay Area community would cause so much harm and would undermine the rights and quality of life for Alameda County Residence and beyond.

It is important to me that no Alameda County resources or services support an ICE detention center. I urge the County to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents.

I have been a resident of Alameda County for more than 40 years. I am writing to urge you to pass the resolution opposing reopening of FCI Dublin as an immigration detention center. As a granddaughter of immigrants, it is important to that immigrants' rights to be treated in a humane and welcoming manner must be upheld and supported; given the conditions and history of this facility, it's highly unlikely that such appropriate treatment would be possible or likely there.

Board of Supervisors Regular Meeting

**Comment**

As a resident of Alameda County who is very concerned about ICE moving into FCI Dublin and illegally detaining neighbors throughout the community, I ask you to strongly oppose the reopening of this facility for any detention purpose by adopting the resolution on agenda item 58.1, "ADOPT A RESOLUTION OPPOSING THE REOPENING OR REPURPOSING OF THE FORMER FEDERAL CORRECTIONAL INSTITUTION IN DUBLIN FOR ANY FUTURE DETENTION OR CORRECTIONAL OPERATIONS." This is a really dangerous juncture because the Federal Bureau of Prisons (BOP) has transferred FCI Dublin to the General Services Administration (GSA), which could transfer it to the Department of Homeland Security. It is very important for the Alameda County Board of Supervisors to pass this resolution and to help build broad public pressure to stop the opening of an ICE detention center in Alameda County.

ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. The withholding of medical care, substandard food, water, and sanitation, and abuse and torture have been well documented. There were a record numbers of 32 deaths in 2025 and already in 2026, 12 people have died. 6 people died in the first two weeks of January alone. Research shows that if a detention center is built, ICE arrests may increase by as much as 7 times. ICE activity is causing deaths, violence, trauma, stress, and anxiety throughout our communities. ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents; FCI Dublin has a long legacy of institutionalized sexual abuse and violence and should never be reopened. FCI Dublin has severe problems of mold, asbestos and other infrastructure problems, which make it unfit for human habitation.

**Comment**

My name is Lisa Rigge and I've been living in Alameda County for 44 years.

I am writing to urge you to support the resolution to oppose the reopening of FCI Dublin as an immigration detention center and/or any other type of detention center. Not only is the building toxic and comes with a history of abuse, but living in Pleasanton and having a detention center nearby greatly concerns and disturbs me.

I do not support holding immigrants in a detention center, especially one in which people will probably not only not be well-maintained, but also where people will be mistreated. Reports of dozens of violations at the detention center in El Paso, Texas have just been published by AP. This is no way to deal with immigration by this administration.

Please support this resolution for all of us in this area. It'll be unsafe for us and for them.

Thank-you,  
Lisa Rigge

Hi, my name is Megan Tedford, and I have been a resident of Alameda County for 6 years. I am a community member and a parent in the City of Alameda, and I am writing to urge you to PASS and vote YES on this resolution to OPPOSE the reopening of FCI Dublin as an immigration detention facility.

This is a critical moment. The Bureau of Prisons has transferred the FCI Dublin site to the General Services Administration, which creates a real possibility that the Department of Homeland Security could acquire it and establish an ICE detention center. That is why it is so important for the Alameda County Board of Supervisors to act NOW.

I want to live in a county where people of all backgrounds feel safe and welcome. What we have recently seen in Minnesota—where federal immigration enforcement operations led to multiple shootings, including the killing of two civilians—raises serious concerns about the impact of these facilities and practices on communities.

Thank you,  
Megan

I am vehemently opposed to the establishment of concentration camps in Dublin. Putting law abiding people in concentration camps is against the US Constitution and the values on which this country was established. We are still making reparations to Japanese Americans for putting them in concentration camps during World War 2 under the same directives that Trump is using to put people in concentration camps today. People in these camps are being subjected to inhumane conditions. The treatment of the victims of this pogrom will be a shameful chapter in American History. Please make the humane choice and be on the right side of history on this issue.

I am writing because I totally disagree with ICE being in our area at all. I have read many stories about the treatment of immigrants who have been arrested by ICE and thrown into detention centers with no due process being done. Most are not criminals in the first place, and their only crime is not having their citizenship case completed. I disapprove of ICE altogether because of their mistreatment of so many people that they arrest. I want ICE gone! Please vote YES on a resolution to oppose reopening FCI Dublin as an immigrant detention camp.

## **Comment**

Re: Opposition to the Conversion of Dublin FCI into an ICE Detention

Facility Dear Members of the Board of Supervisors, My name is Douglas Yoshida. I am a longtime Oakland resident and an emergency physician at Stanford Tri-Valley Medical Center in Pleasanton—the closest hospital to the proposed ICE detention facility in Dublin. I write to you today not only as a physician, but as the son of a Japanese American man who was imprisoned by his own government. I urge you to sign the resolution opposing the conversion of the Dublin Federal Correctional Institution into an ICE detention facility.

In 1942, when my father was 15 years old, he, his family, and his entire community were given 48 hours to gather only what they could carry. The United States Army transported them to the horse stables at a racetrack in San Bruno—a facility reeking of manure, where they slept on hay mattresses. They were then transferred to an internment camp in the Utah desert. This happened because President Roosevelt invoked the Alien Enemies Act to incarcerate over 125,000 Japanese Americans without due process. We now know this was one of the gravest violations of civil liberties in modern American history.

Today, invoking the specter of foreign invasion, the Trump administration has resurrected that same Alien Enemies Act to conduct mass roundups, detentions, and deportations—including of United States citizens—without due process. The parallels to 1942 are not incidental. They are a direct repetition of a policy our nation has already recognized as a moral failure.

The Dublin FCI was closed in 2024 following the discovery that staff—including the warden—had systematically sexually abused inmates. I provided care to some of these women. That legacy of institutional abuse cannot be permitted to continue under any new name or contractor. Beyond its history of misconduct, the physical facility itself is unfit for human habitation: conversations with former guards have confirmed the presence of mold, asbestos contamination, and leaking pipes throughout the building.

The Bureau of Prisons has transferred the property to the General Services Administration—a preliminary step toward sale to a private contractor such as GeoGroup or CoreCivic. These companies carry well-documented histories of prisoner abuse and inadequate medical care. Their

business model is built on minimizing services to maximize profit. As a direct result, detainees held in their facilities frequently arrive at emergency departments with conditions that should have been managed in outpatient settings—or, worse, critically ill from neglect. Stanford Tri-Valley is already under scrutiny from the county for ambulance offload times, and EMS officials have threatened to revoke our Stroke and STEMI receiving center designations. An ICE detention facility in Dublin would strain our already limited hospital resources, increase wait times, and degrade the quality of care in eastern Alameda County.

The harms extend beyond the hospital. Research consistently shows that when ICE detention facilities are established, local residents face arrest rates two to sixteen times higher than in comparable communities without such facilities. The economic consequences would be significant—but the human cost is greater still. The people who would be swept up in these operations are not abstractions. They are our neighbors, our friends, our coworkers, and members of our community who are being terrorized by their own government.

About a year after my father was released from detention, the same Army that had imprisoned him at 15 drafted him into military service. He served. He proved his loyalty to a country that had stripped him of his rights. Now, as his son, I am honoring his memory by refusing to remain silent while history repeats itself. I call on each member of this Board to demonstrate that same patriotism—not through silence or acquiescence, but through the courageous act of standing against policies that repeat the worst chapters of our past. Please sign the resolution opposing the conversion of the Dublin FCI into an ICE detention facility.

Respectfully submitted,  
Douglas Yoshida, MD Emergency Physician,  
Stanford Tri-Valley Medical Center Pleasanton California  
Oakland Resident

Please take action to keep the old Womens prison property in Dublin from being used by ICE or a private prison operator as an immigrant detention center. Most of the immigrants detained and imprisoned by ICE are not violent criminals, most do not have any criminal history and most have been denied due process and legal representation. The Trump administration's mass incarceration of immigrants is purely for political purposes and racist policies, not for the safety of US citizens. Let's not enable this inhumane detention by allowing Dublin to become another imprisonment center, reminiscent of the Japanese internment camps during WW2. Thank you.

I have been a resident of Alameda County (Oakland) since 2018 and I am writing to urge the the Alameda County Board of Supervisors to pass a resolution opposing the re-opening of FCI Dublin as an ICE immigration detention center or any other 'correctional' purpose. Having a detention center in our area would be devastating for our community, which will only feel truly safe when our immigrant neighbors are protected, not terrorized. ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents. We do not want to open the doors to increased ICE presence in our community.

#58.1: Opposing Reopening FCI Dublin

**Meeting Type (Supported by the Clerk of the Board)**

Board of Supervisors Regular Meeting

**Comment**

My name is Vivek Kembaiyan and I live in Berkeley. I write as a resident of Alameda County, as well as on behalf of Hindus for Human Rights and the hundreds of Hindus residing in Alameda County. I write to support the resolution to oppose reopening FCI Dublin for any future prison use. We cannot afford to have FCI Dublin reopen as a prison in any capacity.

Studies show that for every new immigration detention prison bed, the number of ICE arrests increase greatly. Alameda County is home to many immigrants, as well as many people of color who are already being targeted by ICE.

Many Hindus in our county trace our ancestry to India. Since January 20, 2025, 1,977 Indian nationals have been detained by Immigration and Customs Enforcement (ICE). Around 7 arrests of Indian nationals per day. 3,258 Indians were deported from the United States to India in 2025 alone. 84% of these individuals had no criminal convictions and 57% had no criminal convictions or pending criminal charges. Hindus, and Indian Americans and South Asians of all faiths, have faced increasingly racist vitriol, both online and from our government. ICE has shown that they are unwilling to follow the laws, executing, beating, and kidnapping Americans in broad daylight with absolute impunity. The last thing we need is an ICE prison in our community to drive ICE to make more arrests of our community.

Since last year, I have been providing pro bono legal representation to people facing deportation. In that capacity I have visited clients in multiple ICE prisons in other parts of California and in other states. They are isolated places of misery, meant to punish people for pursuing their legal right to live, work, pray, and support their families in this country. ICE is now seeking any excuse to imprison immigrants, on the flimsiest of legal pretenses. Last year, I had a client who was arrested, imprisoned and shipped to another state after he voluntarily appeared for a green card eligibility interview. After almost a year, we had our day in court and he was granted a green card. He has no

criminal record. There was absolutely no reason for him to spend several weeks in an ICE prison, hundreds of miles from his family. If ICE builds a new prison in our county, it is not only the residents of our county who will suffer - it will expand ICE's ability to transport people hundreds of miles from their homes, making our county a place that they and their families associate with misery, suffering and injustice. That is not what we are about here in Alameda County.

I urge you to support this resolution, and do everything in your power to keep our community safe from ICE, including by opposing any effort by the federal government to build a new ICE prison in Alameda County. Thank you in advance for your support of this resolution. May God bless you and protect you in this work to keep our community safe from ICE.

I hope you will pass the resolution against turning the former prison in Dublin into an ICE prison. When our neighbors are being persecuted by a fascistic regime, it's a moral imperative to stand up against this.

As a lifetime resident of the county, I oppose FCI Dublin reopening as an ICE detention center. Our community, friends, and neighbors come from all over the world. That's one of the things I love most about where we live. The current administration's efforts to terrorize immigrants needs to be fought in every way possible. FCI was already closed for being a horrible place where terrible things happened behind closed doors. Allowing this reopening would make us all complicit in this shameful time in our history.

NO ICE IN DUBLIN! The facility is crumbling and is not safe for people to be housed there.

Dear Supervisor Haubert, my name is Linda Knapp. I have been a Dublin resident for 30 years in District 1, and am a member of Indivisible Tri-Valley. Please vote Yes on this resolution on Tuesday, April 7:

I strongly support a resolution to oppose the re-opening of FCI Dublin as an immigration detention center. It's not fit for human habitation due to black mold and asbestos, and inmates were subjected to years of sexual abuse there. The Dublin City Council has unanimously come out with a resolution against reopening it. ICE has indicated that if they have a detention center within two hours of the Immigration Courts in San Francisco, that immigration arrests will dramatically increase. That will bring very negative attention to the whole Bay Area. That's NOT the kind of publicity we want. This proposal is urgently needed in light of the escalating crisis of ICE violence against our communities. Thank you for co-authoring this resolution and bringing it to a vote before the board.

My name is Kathy Ellis and I've been a resident of Alameda County for 48 years.

Thank you to Supervisor David Haubert for introducing this resolution. Thank you to Supervisors Fortunato Bas and Marquez for your ongoing work to support immigrant communities.

I am here to urge you to pass this resolution tonight to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility.

I know that the Board of Prisons has transferred this toxic facility with a dark past to the GSA. I am deeply concerned that if the Department of Homeland Security takes it or leases it to a private prison management company, our community will be in grave danger.

We saw what happened in Minneapolis when ICE began large-scale sweeps and we don't want that kind of violence and terror in our suburbs or anywhere. I also oppose any county services or funds to be used to tear families apart and increase the already intense anxiety in our immigrant communities.

I wholeheartedly support a resolution opposing the re-opening of Dublin FCI and I hope that all board members will vote to support the resolution, as well.

I urge the Board of Supervisors to adopt the Resolution Formally Opposing the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operation. Over the last year, as our communities have been terrorized by ICE and other federal officers, it has become ever more clear that safety comes from coordinating with our neighbors and taking care of one another, not policing, prisons, and detention. FCI Dublin should remain permanently closed.

## **Comment**

I'm a resident of Alameda County (City of Berkeley District #8). I am a graduate student and community member. I'm writing to urge you to pass the resolution to oppose the reopening of FCI Dublin as an immigration detention center or any kind of correctional facility. Thank you to everyone who votes for this resolution tonight for listening to the residents of Alameda County and for standing up for immigrant communities.

I was born and raised in the Bay Area, and I will always consider it my home regardless of where else in the world I find myself. Although I am not an immigrant myself, I grew up with immigrants and the children of immigrants. We went to school together, learned together, grew together. Many of their parents went through unimaginable hardship to secure them a better life, and because of those sacrifices, my friends and I grew up understanding the great value of diversity in our communities.

I have degrees from MIT and Johns Hopkins, and soon will have another from UC Berkeley. At each institution I have had the great fortune to meet and learn from some of the smartest and most accomplished people on this planet, many of them immigrants who have chosen to bring their skills and talents to this country, even in the face of hardship, discrimination, and sometimes lack of respect for their basic humanity. I have lived in large and small cities across the United States, and in each place I have lived I have met immigrant friends, neighbors, and colleagues whose presence in my life and community I value deeply. We should all be eternally grateful for all they contribute.

I have always been proud to be from the Bay Area, a place where the contributions of immigrants are supported, celebrated, and understood to be essential; a place where immigrants are loved as friends, neighbors, and an inseparable part of their communities. The Bay has long been a leader in the resistance against the cruelty, evil, and inhumanity of Trumpism, and it is of vital importance to me that it remain so.

I am strongly against any Alameda County resources or services supporting an ICE detention center. I urge the county to investigate ways to make sure this will not happen. Our County resources must support, not harm, the quality of life for all residents. Thank you again to those of you who vote for this resolution tonight.

I am very opposed to an ICE prison in Alameda county. As a school teacher and parent, I can honestly say that we do not need the chaos that would ensue. People of color would be scared to attend school or work. I value our immigrants and think that there is absolutely no reason to disrupt our lives to rid ourselves of our neighbors, friends and families who contribute so much to alameda county's wonderful diversity. Please keep ICE out of Alameda County

Board of Supervisors Regular Meeting

**Comment**

The Berkeley chapter of the Japanese American Citizens League (JACL) urges the Alameda County Board of Supervisors to pass the “Resolution Formally Opposing the Reopening or Repurposing of the Federal Correctional Institution Dublin for Any Future Detention or Correctional Operations” to stop the opening of an ICE detention center in Alameda County and protect the human and civil rights of Alameda County residents.

ICE detention centers, usually run by private, for-profit companies, have profoundly inhumane conditions. Infrastructure problems such as severe mold and asbestos make it unfit for human habitation. Moreover, the withholding of medical care, substandard food, water, adequate sanitation, and abuse has resulted in the record numbers of 32 deaths in 2025 and 12 people have already died in 2026. In fact, 6 people died in the first two weeks of January alone. ICE is routinely violating the constitutional, civil and human rights of all residents, including US citizens and legal permanent residents. FCI Dublin will perpetuate these gross violations of human and civil rights, consistent with its a long legacy of institutionalized sexual abuse and violence.

As Japanese American survivors and descendants of the United States incarceration camps, during World War II, we know that imprisoning parents and children causes deep harm that impacts the family and community for generations. This is why it is crucial that we stop the ICE detention center from opening to prevent the unjust incarceration and inhumane separation of families.

This is a critically important juncture because the Federal Bureau of Prisons (BOP) has transferred FCI Dublin to the General Services Administration (GSA), which could transfer it to the Department of Homeland Security. It is very important for the Alameda County Board of Supervisors to take a stand and pass this resolution to help build broad public pressure to stop the opening of an ICE detention center in Alameda County. Thank you for your support.

**Comment**

Under no circumstance should Alameda County allow an ICE detention facility to open in Dublin.

It would undermine community cohesion, trust, and function.

It would pit neighbor against neighbor.

It would bring unwanted truck traffic.

It would destroy local families.

It would most likely disrupt schools in the county, where ICE are known to frequent.

Permanent infrastructure of this type would diminish Dublin and the County in every way.

The Board should vote to oppose the reopening of FCI Dublin as an ICE Facility.

Under no circumstance should Alameda County allow an ICE detention facility to open in Dublin - or anywhere else in Alameda County.

Sent from [Board of Supervisors | Alameda County](#)

My name is Dr. Susan Burleson and I live in Pleasanton.

I am a concerned American and California citizen who feels I must help stop Trump's attempts to dismantle our constitutional rights and the rights of all the people living in the United States. ICE operations and detention centers under the Trump Administration must be stopped!

I support your resolution in opposing the reopening of the FCI Dublin as an ICE facility! I hope that all of you on the Board will vote yes.

- ICE detention centers are usually run by private, for-profit companies and are known for profound inhumane conditions – withholding medical care, providing substandard food, water and sanitation, not to mention having a history of abuse, rough treatment and torture that has been documented!
- There were 32 deaths in 2025 and already in 2026, 12 people in the ICE facilities have died. These are needless deaths!
- FCI Dublin has had a reputation for institutionalizing sexual abuse and violence and should never be reopened!

We must stop ICE and the thugs who are intimidating innocent people who are not being given their due process rights as immigrants. Your passing this resolution to not allow the reopening of the FCI Facility in Dublin is one way to protect people who came to America seeking a better way of life and are entitled to their due process rights! Those rights are being trampled on by the Trump Administration and the ICE operations as they exist must be stopped. Do not reopen FCI Dublin as an ICE facility!

Thank you, and all of you, please vote "yes" on this resolution.
